

Custom Flags Australia Offers Sustainable & Eco-Friendly Flag Materials

April 24, 2023

April 24, 2023 - PRESSADVANTAGE -

Custom Flags Australia, the premier provider of high-quality flags in Australia, is pleased to announce that they are now offering sustainable and eco-friendly flag materials. As part of its commitment to sustainability, the company is now providing customers with environmentally responsible options for all their flag needs.

Custom Flags Australia has been selling and shipping flags to every state in Australia since 2004. With over 1000 different flags available and more than 60,000 flags sold to date, the company has quickly become a trusted name in the industry. Their commitment to providing high-quality products and exceptional customer service has resulted in over 4000 happy customers in just the last 6 months.

According to Brian Scanlon, Director of Custom Flags Australia, "Custom Flags Australia is committed to promoting sustainability and reducing our impact on the environment. The team understands the importance of making responsible choices in everything they do, and that includes the materials they use for the flags. By offering sustainable and eco-friendly options, the team hopes to inspire the customers to make more environmentally responsible choices as well."

Custom Flags Australia's sustainable flag materials are made from recycled materials and are fully recyclable at the end of their useful life. They are available in a range of colours and sizes and can be custom printed with any design or logo. The company's sustainable flag materials are durable and weather resistant, making them ideal for both indoor and outdoor use.

"Team members are excited to offer sustainable and eco-friendly flag materials to the customers," said Brian Scanlon. "Custom Flags Australia believe that sustainability is everyone's responsibility, and by offering these options, the team hope to encourage the customers to make more environmentally responsible choices. Team members are committed to doing their part to protect the planet, and the company hope that the customers will join in this effort."

Looking to the future, Custom Flags Australia is committed to continuing to promote sustainability and reduce its impact on the environment. The company plans to expand their range of sustainable flag materials and explore new ways to reduce its carbon footprint.

"Team members are always looking for ways to improve and do better," said Scanlon. "Custom Flags Australia believe that sustainability is not just a trend, but a responsibility that everyone shares. The commitment to protecting the environment remains steadfast, and the exploration of new ways to promote sustainability in the future is eagerly anticipated."
