

We have helped Healthcare companies for over 40 years identify, recruit, and retain highly skilled medical professionals.

searchonejobs.com Launches Newly Updated Website

December 10, 2015

December 10, 2015 - PRESSADVANTAGE -

Clearwater, FL based Search One Inc. has announced the launch of their newly updated website. The company provides headhunting services for medical personnel around the nation. Bill Pedrey, spokesperson for the company states, "We're pleased to have finally launched our newly developed site. We feel that it will offer a more streamlined process for those searching for a job in the healthcare industry."

The new site, which can be seen at www.searchonejobs.com, offers a number of benefits for those in the healthcare industry. Jobs are now categorized for nurses, speech therapists, physical therapists, and occupational therapists. Pedrey believes that this will make it much easier for those searching for a healthcare related occupation.

"It's just much easier now for people to navigate the site," he states. "We've been in the industry for years, and have the positive reviews to show for it."

The company provides healthcare recruiters with an easier way of finding applicants. With more than 40 years of industry experience, they offer full recruiting services from the initial application to setting up interviews, coordinating letters of job offers, and offering letters of acceptance to applicants.

Those interested in searching for an open position can now do so directly on Search One's new site. A jobs tab is available which offers a look at available positions all over the United States. Applicants can see more information about each job, their location, and find out details about each specific position. Resumes can also be uploaded directly to the site, making it easier for applicants to find and apply for the positions that they are qualified to perform. Jobs are now listed by groups as well as by individual state, with a "hot jobs" category for those companies that are ready to hire instantly.

The company states that in streamlining their application process, they hope to be able to provide a higher level of recruiting service and better match qualified individuals with the healthcare facilities that need them.

More about the company, including a complete list of the services they provide and the job categories that they currently have available, can be seen on their newly upgraded website.
