South Jersey Dog Trainers Announce BBB Membership

December 07, 2015

December 07, 2015 -
Marlton, New Jersey based K9 Basics has announced their recent membership with the New Jersey Better Business Bureau (BBB). The BBB membership allows the dog training company to display the widely recognized BBB torch logo on its website, as well as the BBB's Gold Seal. Members of the BBB set the standards for credibility, reliability, and ethics in all businesses online and offline.

Company founder, Brian Berg explained "We are pleased to join the BBB because our reputation is very important to us. I know we are the best dog trainers in New Jersey, and the BBB gives us the opportunity to receive positive feedback from outside of our organization. Helping families unleash the potential in their dog is our greatest reward."

The South Jersey dog trainers offer unlimited training, working at the client's pace. Training sessions depend on each dog and the specific issues that they or their owners may be facing. Owners can bring their dogs to K9 Basics indoor and outdoor facilities for group instruction, or they can choose to let the staff train their dog utilizing their Board and Train program. Training is provided for digging issues, sit and come commands, chewing problems, jumping issues, barking, and a variety of other obedience problems in dogs of all ages. Most importantly, dogs are trained to obey commands regardless of distractions that are constantly occurring.

Becoming a member of the Better Business Bureau enables the South Jersey dog obedience company to better prove to clients that their reputation is stellar. A BBB accreditation is earned when a company shows that it is legitimate and trustworthy in its services. Berg says that their company has always believed that the client comes first, and strives to provide all of their clients, even the furry ones, with the utmost in support and quality services.

A BBB membership proves to potential customers that a business is serious in upholding various standards set forth, and that the business has not received consumer complaints or had other issues that could affect its overall reputation.

They have a simple advice for those who would like to learn more. They can visit the company on their official website, where a complete list of services are listed. Information and tips for dog owners are also offered on the K9 Basics official site.
