Shade Seekers: Columbus Tree Service Experts' Design Services for Creating the Ultimate Backyard Tree Oasis

April 26, 2023

April 26, 2023 -
Columbus, OH ? Columbus Tree Service Experts, a premier tree care and maintenance service provider, is excited to announce their new offering: design services for creating the ultimate backyard tree oasis. The company's certified arborists and landscape designers will collaborate with homeowners to transform outdoor spaces into serene, tree-filled sanctuaries perfect for relaxation and enjoyment.

Michael Johnson, CEO of Columbus Tree Service Experts, believes that trees play a crucial role in enhancing the aesthetics and atmosphere of any outdoor living space. "Trees not only provide shade and privacy, but they also create a calming and inviting ambiance," Johnson said. "Our goal is to help homeowners maximize the benefits of trees in their backyards by designing and implementing a customized tree oasis that fits their needs and preferences."

Columbus Tree Service Experts' comprehensive design services begin with an in-depth consultation to understand the client's vision and requirements. Next, the team will assess the existing landscape, considering factors such as sunlight, soil conditions, and available space to determine the optimal tree species and planting locations. In addition to selecting and planting trees, the company will design and install complementary landscaping elements, such as shrubs, flowers, and hardscaping, to create a cohesive and harmonious backyard retreat.

"Every homeowner's dream backyard is unique, and we are committed to providing personalized design solutions that cater to their tastes and lifestyles," Johnson emphasized. "From creating a secluded reading nook under a canopy of trees to designing a family-friendly space for outdoor dining and play, our team has

the expertise to bring any tree oasis vision to life."

Columbus Tree Service Experts will utilize eco-friendly practices and materials throughout the design and installation process as part of their commitment to environmental stewardship. This includes using organic fertilizers and mulch and sourcing locally-grown trees and plants to minimize the environmental impact.

Johnson is confident that the company's extensive knowledge of tree care and passion for the environment will set its design services apart. "Our team's expertise in tree selection, planting, and maintenance ensures that we can create a sustainable and thriving tree oasis that will provide homeowners with years of enjoyment," he said.
