

Tree-mendous Tales: Garden Grove Tree Experts' Storytelling Sessions for Children Under the Canopy

April 26, 2023

April 26, 2023 -
Garden Grove, CA - Garden Grove Tree Experts, a renowned tree care company in Garden Grove, California, is delighted to announce their new initiative, "Tree-mendous Tales." This innovative program aims to spark children's imagination and foster a love for nature by hosting storytelling sessions under the canopy of the city's most majestic trees.

Scarlette Winter, CEO of Garden Grove Tree Experts, shares her enthusiasm for the project: "We're passionate about connecting the community with the beauty and importance of trees. With 'Tree-mendous Tales,' we hope to inspire the next generation to appreciate and care for our urban forest by engaging them in fun and creatively."

The storytelling sessions will take place at various parks and green spaces throughout Garden Grove, featuring local storytellers and authors who will share enchanting tales, fables, and legends, all centered around trees and nature. The program is designed for children aged 4 to 10, and interactive activities and

educational materials will follow each session to reinforce the themes of the stories.

According to Winter, the choice of location is an essential aspect of the program: "By holding the storytelling sessions under the shade and beauty of our city's most impressive trees, we create a magical atmosphere that transports the children into the world of the stories. It's a unique experience that helps them form a lasting bond with nature."

Garden Grove Tree Experts is collaborating with local schools, libraries, and community organizations to promote "Tree-mendous Tales" and encourage participation. The company also works closely with the city's Parks and Recreation Department to ensure the selected tree locations are safe, accessible, and suitable for storytelling sessions.

Winter highlights the community-driven nature of the program: "We are incredibly grateful for the support we've received from local partners who share our passion for trees and education. It's a testament to the power of collaboration in positively impacting our city's future generations."

The first "Tree-mendous Tales" session will take place in the coming weeks. Garden Grove Tree Experts plans to expand the program throughout the year, offering regular sessions during the warmer months and special events for holidays and celebrations.

Scarlette Winter emphasizes the importance of nurturing a love for trees and the environment from a young age: "We believe that by instilling a sense of wonder and respect for nature in children, we can help shape a more sustainable and tree-friendly future for Garden Grove and beyond."
