Los Angeles DUI Lawyer, a law firm providing leading DUI defense services in Los Angeles, CA, is discussing the many ways in which it builds a DUI defense for its clients.

The ?Over 80? charge, as it is called, is one of the most litigated criminal charges in Los Angeles. Covered under Section 253(1)(b) of the state?s Criminal Code, it relates to driving while impaired, specifically when the BAC (Blood Alcohol Concentration) of an individual is over 80 mg per 100 ml of blood. A DUI charge can have major consequences on a person?s future such as getting a criminal record, going to jail, suspension of their driver?s license, hefty fines, travel restrictions, and loss of income due to reduced employment opportunities. More details about the charges can be found at Drunk Driving Lawyer Los Angeles.

?Having a DUI on your record can set you back years in your personal or career goals,? says the spokesperson for Los Angeles DUI Lawyer. ?So, if you have an Over 80 charge, it is imperative to find an experienced DUI defense lawyer to fight on your behalf. The prosecution relies on testimonies from first responders, police officers, and eyewitnesses to bolster the case against you. This is where a competent lawyer will start building a defense. They will conduct detailed investigations and perform vigorous cross-examinations of the prosecution?s witnesses to get you a favorable result.?

At Los Angeles DUI Lawyer, the law firm?s attorneys focus on disputing the results of the blood alcohol test. Since blood samples are collected at the police station, sometime after being apprehended, and the BAC level peaks around 2 to 3 hours after consuming alcohol, the test results can be inconclusive to a great degree. Next, attorneys can also find discrepancies in the arresting officer?s compliance with California?s Title 17 Regulations. Even if the police officer did not read the defendant their Miranda Rights, it can be a way for the attorneys to fight an Over 80 charge.

?This is just the beginning of the defense strategy that has proven to be quite successful for Los Angeles DUI

Lawyer,? says the spokesperson. ?We also attack any lapse in protocols that the law enforcement officials had while measuring your blood alcohol content. First, there should be at least a 15-minute interval between samples, samples should be taken using approved equipment only, the first sample should be taken no more than 2 hours after the arrest, and only a qualified technician must operate the test equipment. During litigation, we can put on a rock-solid defense for our clients by finding such deviations in the standard methodology. Find out more about us at DUI Lawyer Los Angeles.?

The team at Los Angeles DUI Lawyer may also visit the site of the crash or offense to gather more evidence about the circumstances leading up to the accident. Paired together with finding inconsistencies in the evidence, the law firm?s attorneys can poke holes in the prosecution?s case and protect their clients from the dire consequences of a DUI charge.

?Statistically,? the spokesperson says, ?if technical errors can be found in the way the police handled your case, there is a 50% chance that your DUI in Los Angeles can get dismissed. However, the final determination can only be made after an in-depth assessment of the facts by a knowledgeable and skilled attorney, such as our team of legal experts here at Los Angeles DUI Lawyer. At our firm, we only hire DUI lawyers who have had a high percentage of the DUI cases, that they have fought for their clients, dismissed.?

Vehicle owners in California facing DUI charges can turn to the law firm for the dismissal, removal, and reduction of DUI charges and other charges such as failure to provide a specimen, probation violations, 1st, 2nd, and 3rd DUI offenses, care and control DUI, drugged driving, underage DUI, wrongful DUI, Out of State DUI, DUI expungement, DUI convictions, and more.
