Leaking taps literally cause money to go down the drain and could waste thousands of liters of water a year. Zebra Plumbing technicians take every tap leak job seriously, scoping out the full project before starting repairs. The company repairs and replaces all kinds of taps

?Lately, we?ve seen a lot of issues with leaking taps and burst pipes,? adds Slabbert. ?These two problems are common, and actually related. Most often they are caused by high water pressure, something many residents aren?t always aware of.?
