

Life Intents Releases More Portable Stargazing Tent for Campers and Glampers

May 03, 2023

May 03, 2023 - PRESSADVANTAGE -

Portland, OR - Life Intents, one of the nation's leaders in sales of luxury canvas bell tents, announced today that they have released a more portable stargazing tent. This expanded offering was triggered by high consumer demand of the larger 16-foot and 20-foot Stella™ stargazer tents over the past 2-years.

The opportunity to feel a greater connection to nature is now possible with this new 13-foot skyview canvas tent from Life Intents. Birds, trees, clouds, stars, and the moon can all be adored right from bed with the 360-degree see-through tent ceiling panels.

Modeled after their popular Fernweh® bell tent, The Stella is both a beauty and a beast. Made with ultra-heavy 11.5 oz. (390 gsm) army duck cotton canvas, this 4-season tent is waterproof and made to stand up to Mother Nature, and stand out on social media feeds.

“We are excited to announce the addition of our new 13-foot Stella skyview canvas tent to our product line.

This tent is perfect for campers who want to experience the beauty of nature under the stars, but don't have the extra space required for our larger tents. It's also a great option for families with young children, as it's easy to set up and take down, and it's spacious enough for everyone to spread out and relax. We're confident that our customers will love this new tent as much as we do," says Brandy Lamb, co-founder of Life Intents.

The new spacious 4-meter design creates a 13-foot diameter footprint, providing 113 square feet of camper sleeping space that can comfortably accommodate 6 sleeping bags or 2 full beds. Plus, the versatile double walls can be opened around the entire perimeter to let through a breeze during warm days and nights - while keeping the bugs out. For chilly weather the tent includes a stove jack exit allowing for adding a wood burning stove to keep the inside cozy and warm.
