Buki Yuushuu Professional Martial Arts Weapons Announces New Bo Staff Designs

December 08, 2015

December 08, 2015 - PRESSADVANTAGE -

Buki Yuushuu is proud to announce that they will be adding a minimum of 10 new Bo Staff designs to its Bo Staff lineup at the beginning of the New Year.

These designs will be diverse and will cater to various consumer sensibilities. Some of the designs will include Animal Prints, Metallics and Prism patterns, to name a few popular ones. Some of them are designs that have been asked for by customers for quite some time now.

According to the company, users will be able to get exactly what they need. The bo staffs' designs will be available in all usual sizes to cater to a wide consumer base. An additional feature has also been added - now, the designs can be personalized with a customer's name or the name of anyone they might want to gift it to. A specific word or phrase, if a customer wants that instead of a name, can be used to personalize the Bo Staff too.

The products can be found on YouTube: <https://www.youtube.com/watch?v=rnBdeRCvQBg>.

About the Company

Buki Yuushuu is a Professional Martial Arts Weapons manufacturer, well known in the field for designing and manufacturing high-end quality weapons for martial arts at reasonable prices. Buki Yuushuu manufactures a wide variety of weapons.

The company manufactures a number of weapons, including Nunchucks, Bo Staff, Kali, Arnis, Escrima and Kamas and many others, at prices that rival the best in the martial arts business. Buki Yuushuu are custom competition weapon specialists, featuring unique designs and children's weapons as well. Personalization and customization are often done in an attempt to make the product stand out as well as for it be more special to the consumer.
