

How To Whiten Teeth At Home: First Class Whitening Announces Celebrity-Style Teeth Whitening Trial Kit For Best Teeth Whitening Results At Home

December 08, 2015

December 08, 2015 - PRESSADVANTAGE -

First Class Whitening, a professional smile solution company, is proud to announce to the public its teeth whitening trial kit offer.

With successful teeth whitening results reported for generic stains, soda stains, and smoking stains that usually disfigures smiles, the company hopes to get its product into the hands of those who don't want to buy high priced teeth whitening products without trying a smaller sample first.

The America Dental Hygienists Association (ADHA) further affirms the effectiveness of the trial kit product and other similar products with its clinical prove statement: "Bleaching is effective in lightning most stains caused by age, tobacco, coffee and tea. Based on clinical studies, 96% of patients with this kind of stains experience some lightening effects. Other types of stains such as those produced by tetracycline use or fluorosis (too much fluoride) responds to bleaching less reliably" (https://www.adha.org/sites/default/files/7227_Tooth_Whitening_1.pdf).

According to Matis Bruce, director of research at Indiana University School of Dentistry: "An informed do-it-yourself approach may be cheaper and ultimately just as effective as going to your dentist. Costing \$200 to \$400, the kits work as well as or better than in-office treatments."

Recently, Amber Rose was the last celebrity to make a big deal of teeth whitening for her great smile. She claims to have been trying the "over the counter" options for years and recently posted an image to Instagram that shows her using the teeth whitening kit. Because she has been traveling so much, Amber Rose says that it has been her go to kit on the road (<https://www.instagram.com/p/0dbiGWkqz9/>).
