Augusta, GA - Wayne's Service All, a locally owned company, has announced the launch of its improved Heating and Air Maintenance Service this summer. The company provides top-quality heating, ventilation, and air conditioning (HVAC) services, including sales, installation, repair, and maintenance.

With the summer season fast approaching, HVAC maintenance becomes crucial to ensure that systems are in optimal condition. Annual HVAC maintenance will help keep your system's optimal performance. Doing spring maintenance will ensure that your HVAC system is clean and properly lubricated, which is crucial after the winter months. It will also prevent breakdowns, which can be inconvenient in the scorching summer heat.

Wayne's Service All offers maintenance agreements for customers who want to keep their HVAC system in the best shape to operate efficiently. The company also provides a no-contract maintenance service for a single visit. Their technicians will test all system mechanical and electrical components, test safety switches and clear drain lines, clean the condenser coil, inspect the evaporator coil, and check refrigerant levels.

Repairs will be recommended, if needed, based on their findings.

"We are dedicated to providing our customers with quality service. We offer a 100% satisfaction guarantee on all of our services. We also offer a wide range of services, including water heater repair and replacement, dryer vent cleaning, and emergency repair services. If you need HVAC services, please give us a call today. We would be happy to help you," says Wayne, Wayne's Service All owner.

The Improved Heating and Air Maintenance Service will be launched on May 15th, 2023. It will be available at Wayne's Service All, 123 Main Street, Augusta, GA. Wayne's Service All invites customers to join them for their launch event and ribbon-cutting ceremony on May 15th, 2023, at 10:00 am.
