In such situations, homeowners need a reliable and efficient restoration contractor to help them get their lives back to normal.

According to company spokesperson Brian Thomsen, "We know that time is of the essence when it comes to water damage, which is why we offer 24/7 emergency services. Our team of experts will quickly assess the damage, identify the source of the problem, and develop a comprehensive plan to restore the property to its pre-damaged condition."

Cougar Restoration's preventative measures include regular inspections, maintenance, and repairs of plumbing systems, roofs, and other areas where water damage can occur. The company does not just fix the problem; it also takes measures to prevent it from happening again.

"Our goal is not to become the biggest and baddest restoration contractor in Oregon but to ensure our customers' complete satisfaction. Our market is saturated with scores of restoration contractors who offer the same services we do, and some of them are super nice people. It's not up to us to tell you we are the best in our industry. Our customers will tell you themselves," Thomsen added.
