

## **Mindarie-Quinns Dental Centre Introduces Same-Day Crowns with CEREC Technology**

*May 15, 2023*

May 15, 2023 - PRESSADVANTAGE -

Mindarie-Quinns Dental Centre, a leading dental care provider in Western Australia, is excited to announce the introduction of same-day crowns with CEREC technology. The latest addition to their dental services will enable patients to get dental crowns in just one visit, saving them time and inconvenience.

"Dental Crowns - <https://www.mindariequinnsdental.com.au/dental-crowns-joondalup/> are an affordable and popular option for restoring dental health and enhancing the smile. However, the traditional process of getting dental crowns can take several weeks, involving multiple visits to the dentist's office. With the latest CEREC technology, the team can offer patients the convenience of getting same-day crowns," said Dr Zaheer Kadwa, spokesperson for Mindarie-Quinns Dental Centre.

The CEREC technology uses a computer-aided design and manufacturing (CAD/CAM) system to create dental crowns in just one visit. This innovative technology allows the dental professionals at Mindarie-Quinns Dental Centre to take digital impressions of the patient's teeth, design the crown using 3D software, and fabricate it on-site using a milling machine. The result is a high-quality, custom-fit dental crown that matches the colour of the patient's surrounding teeth, ensuring optimal results and long-lasting durability.

"Team members are committed to providing the best possible dental care to patients, and the introduction of same-day crowns with CEREC technology is a testament to dedication. The team understands that their patients lead busy lives, and their time is valuable. With this latest technology, the team can save patients the inconvenience of multiple appointments and provide them with the highest quality dental crowns in just one visit," added Dr Kadwa.

Mindarie-Quinns Dental Centre - Dental crowns Joondalup is known for its affordable and competitive pricing for all types of dental crowns. The low-cost options make dental crowns an accessible solution for everyone, and the friendly payment plans ensure that payment is not a barrier between patients and their dream smile.

"The goal is to provide quality oral care at affordable rates, and Mindarie-Quinns Dental believe that everyone deserves a beautiful smile. With the same-day crowns using CEREC technology, the team can make dental crowns even more accessible to patients," said Dr Zaheer Kadwa.

The dental professionals at Mindarie-Quinns Dental Centre have years of experience in providing dental crown procedures, and they work closely with their patients to determine the best type of dental crown for their specific needs.

"Ensuring the patients' satisfaction remains the foremost priority, and the commitment is to provide them with the finest dental care possible. With the latest CEREC technology, the convenience of same-day crowns can be offered without compromising on quality," said Dr Kadwa.

The introduction of same-day crowns with CEREC technology is a significant milestone for Mindarie-Quinns Dental Centre, and it reinforces their commitment to providing the best possible dental care to their patients.

"Team members are excited about the future possibilities that CEREC technology offers. The team believes that this technology will revolutionise the dental industry and enable the clinic to provide even better dental care to patients," said Dr Zaheer Kadwa.
