

## **My Implant Dentist Assists 84-year-old Perth, WA Patient With Dental Implants**

*May 15, 2023*

May 15, 2023 - PRESSADVANTAGE -

My Implant Dentist, a prominent provider of dental implant services, recently assisted an 84-year-old patient in restoring their smile with dental implants <https://myimplantdentist.com.au/dental-implants-perth-cost/>.

The patient had been struggling with missing teeth and was seeking a permanent solution that would enhance the function and appearance of their smile.

Dr Kent Tan, the Principal of My Implant Dentist, headed the team that treated the patient. He emphasised that the patient's age was not a hindrance to treatment, stating that "At My Implant Dentist, the team believes that everyone deserves a healthy and functional smile, no matter their age. The team works closely with each patient to create a customised treatment plan that meets their individual needs."

Dental implants are a well-liked option for replacing missing teeth due to their advantages over traditional dentures or bridges. They're created to appear, feel, and operate like natural teeth, which makes them a fantastic alternative for individuals seeking a long-term solution to damaged or missing teeth.

Dr. Kent Tan stated that "The ultimate objective is to offer patients the most natural-looking smile possible. The team ensures that every implant is precisely positioned to guarantee optimum comfort and functionality."

The patient's treatment plan involved the placement of two dental implants in the upper jaw, which were used to anchor a custom-made bridge. The bridge was designed to match the patient's natural teeth, creating a seamless and natural-looking smile.

Looking ahead, My Implant Dentist - Dental Implants Perth is committed to providing high-quality dental implant services to patients of all ages. Dr Kent Tan noted that the clinic has seen a growing demand for dental implant services in recent years, as more patients become aware of the benefits of this treatment option.

"Team members are proud to be at the forefront of dental implant technology and to offer patients the latest advancements in this field," Dr Kent Tan said. "Team members are excited to continue transforming smiles and helping patients like the 84-year-old patient enjoy a better quality of life."

My Implant Dentist has been featured in Perth Now as one of the latest establishments to open in South Perth. The clinic provides a wide range of dental implant services, such as single-tooth implants, implant-supported dentures, and All-On-4 treatment. Patients who wish to know more about these choices can book a free consultation with one of the clinic's skilled implant dentists.
