Prevent Clogged Gutters and Water Damage with Leaf Relief From TK Roofing and Gutters

May 25, 2023

Akron, Ohio - May 25, 2023 -
For Ohio, homeowners needing repairs to their roofs and or gutters, TK Roofing and Gutters can help get the job done. Serving all areas in the Buckeye State, TK Roofing and Gutters promise professionalism and high-quality service with every home served. Highly rated on Google and Yelp, TK Roofing and Gutters is known as one of Ohio's leading roofing and gutter companies.

TK Roofing and Gutters has been in business since 2007. In that time, they've completed over 1600 projects, serving over 800 happy customers. They offer free inspections, lifetime warranties on all services, and they are licensed, bonded, and insured. If a homeowner is dealing with storm or wind damage, TK Roofing and Gutters also has qualified and experienced insurance specialists who will handle everything for the homeowner and work directly with their insurance company.

"We pride ourselves in providing the best roofing and gutters service in Ohio," says the owner Daryl Gentry. "In the 16 years we've been in business, we consistently bring an unmatched level of experience and high-quality service to every project and home we work on."

The company wants to inform Ohio residents of the importance of gutter maintenance to protect homes. In a state that sees all 4 seasons, including harsh winters, fall leaves, and summer and spring downpours, Ohio homeowners can rely on TK Roofing and Gutters to ensure their gutters are well maintained throughout the year.

"Gutters are an often overlooked aspect of home maintenance," says Gentry. "It's a dirty job that can also be dangerous if a person is not experienced. That's why we offer gutter repair and installation. At TK Roofing and Gutters, we can clean, install, or repair gutters for homeowners, taking the chore off their plates."

Keeping gutters clean is essential for homeowners. When gutters are clogged, it can lead to trapped water,

resulting in water damage throughout the home. Water damage can attract bugs, rodents and can even cause mold growth. Keeping gutters clear is important for protecting the integrity of a home. This is why TK Roofing and Gutters recommend that gutters be cleaned at least twice a year and sometimes more after wind and rain storms.

Another way to keep gutters well-maintained is with gutter guards. Gutter guards are a great way to mitigate debris buildup. They are installed over gutters to block leaves, bird nests, and other debris from getting trapped in the gutter. Gutter guards can also help keep out bugs and pests, ice dams in the gutters, and prevent water damage. They are designed with water drainage holes so water can still fall through and access the gutter. TK Roofing and Gutters offer Leaf Relief® gutter guard installation for homeowners seeking an extra line of defense.

"Recently, we installed gutter guards for a homeowner who had issues with their gutters backing up," says Gentry. "They were having issues with clogged gutters and water not draining properly. We cleaned out their gutters and installed Leaf Relief gutter guards. Now the homeowners haven't had a single issue since our installation."

TK Roofing and Gutters has installed Leaf Relief throughout Ohio. A highly sought-after service, Leaf Relief eliminates the hassle of cleaning gutters, saving homeowners time and money. Leaf Relief is nearly maintenance-free and can handle heavy rain and adverse weather conditions.

"Gutter guards are an investment. But when installed and maintained properly, they can save homeowners a lot of headaches," says Gentry. "Leaky or clogged gutters can result in thousands of dollars in repairs, not to mention the threat of mold exposure to your family. Gutter guards give you peace of mind, and when you work with us, you can be confident you're getting the best service for the best price."
