

# Centar Klima Unveils New Portable Air Conditioner for Optimal Cooling On the Go

*May 18, 2023*

May 18, 2023 - PRESSADVANTAGE -

Centar Klima, a leading provider of innovative cooling solutions, is thrilled to announce the launch of their latest product, the Centar Klima Portable Air Conditioner. Designed to deliver efficient and convenient cooling in any space, this cutting-edge portable unit offers exceptional performance, versatility, and ease of use.

The Centar Klima Portable Air Conditioner is a game-changer in the realm of portable cooling solutions (to read a Croatian version click "[prijenosna klima](#)"). With its compact design and powerful cooling capabilities, this unit is perfect for a wide range of applications, including homes, offices, dorm rooms, RVs, and small commercial spaces. Whether it's a temporary cooling solution or the need for flexibility in cooling various areas, the Centar Klima Portable Air Conditioner is the ideal choice.

The Centar Klima Portable Air Conditioner has several key features and benefits.

**Powerful Cooling Performance:** The unit boasts a high-capacity cooling system, capable of rapidly cooling areas up to 215 square feet.. With adjustable fan speeds and temperature controls, users can customize their cooling experience to suit their preferences.

**Compact and Portable:** Weighing 50 pounds and featuring smooth-rolling casters, the Centar Klima Portable Air Conditioner is easy to move and position wherever cooling is required. Its compact size ensures it can fit seamlessly into any room or space without taking up much floor space.

**User-Friendly Interface:** The user-friendly control panel and digital display make operating the portable air conditioner effortless. Users can easily adjust settings, set timers, and activate the sleep mode for optimized energy efficiency.

**Three-in-One Functionality:** The Centar Klima Portable Air Conditioner not only cools but also serves as a dehumidifier and a fan. It efficiently removes excess moisture from the air and circulates fresh air, enhancing comfort levels and creating a healthier indoor environment.

Energy Efficiency: Built with eco-consciousness in mind, the Centar Klima Portable Air Conditioner features energy-saving modes, including programmable timers and a sleep mode, which helps conserve energy and reduce electricity costs.

Commenting on the launch of the Centar Klima Portable Air Conditioner, Ivan Juric, CEO of Centar Klima, said, "We are excited to introduce our latest innovation, the Centar Klima Portable Air Conditioner. This product showcases our commitment to providing reliable, efficient, and versatile cooling solutions. With its compact design and powerful performance, we believe it will greatly enhance comfort and convenience for our customers."

The Centar Klima Portable Air Conditioner is now available for purchase at authorized retailers and through the Centar Klima website at [centarklima.com](https://centarklima.com).
