

# Align Health Collective Introduces Affordable Treatment Plan Packages

*May 22, 2023*

May 22, 2023 -
Align Health Collective, a renowned healthcare provider, is excited to announce the launch of its affordable treatment plan packages aimed at ensuring access to high-quality healthcare for all individuals. The clinic recognises that the cost of healthcare can significantly impact treatment decisions and outcomes. By introducing these new packages and payment plan options, Align Health Collective - physiotherapy treatment plan is making healthcare more accessible and affordable for everyone.

Align Health Collective's treatment payment plans provide individuals with comprehensive care and treatment options that cater to their specific needs. The packages are designed to offer convenience, savings, and exceptional value for patients seeking long-term treatment solutions. By choosing these packages, individuals can take advantage of cost-effective plans while still receiving top-notch care from the skilled practitioners at Align Health Collective.

Chalerm Tuantab, Managing Director of Align Health Collective, stated, "The team believes that everyone

should have access to the highest level of healthcare. The affordable treatment plan packages are a testament to the commitment to providing exceptional care to all individuals, regardless of their financial circumstances."

Align Health Collective offers a range of treatment plan packages to cater to various needs and budgets. The 4-week treatment plan includes two initial sessions, followed by subsequent sessions for the remaining three weeks. The usual cost of this plan is $516, but the special package price is set at $450, including a foam roller and theraband. Furthermore, all consultations in this package are claimable with private health insurance, providing patients with additional savings and flexibility.

For individuals seeking a more extended treatment plan, Align Health Collective offers a 6-month package comprising four consultations in the first month and two consultations monthly for the following five months. The usual cost for this comprehensive plan is $1,407, but with the package special, patients can avail themselves of the entire treatment plan for just $980, along with a free foam roller and theraband. Align Health Collective ensures that all consultations within this package remain claimable with private health insurance, allowing individuals to save a substantial amount while receiving exceptional care.

Chalerm Tuantab further emphasised, "The treatment plan packages are designed to provide individuals with affordable, long-term solutions. The team wants to ensure that finances do not hinder individuals from receiving the care they deserve."

In addition to the treatment plan packages - https://www.alignhc.com.au/packages, Align Health Collective offers a 10-pack exercise session (1v1) package tailored to patients' specific needs. These 45-minute sessions, conducted by experienced practitioners, are usually priced at $99 per session. However, with the 10-pack package available at $800, patients can save $190 and receive a complimentary foam roller and theraband. As with all other packages, this option is claimable with private health insurance, providing individuals with additional financial benefits.

Align Health Collective also understands the importance of orthotics in certain cases and recognises that the cost can be a barrier for some individuals. To address this, the clinic offers tailored payment plans (interest-free) for orthotics, making this gold-standard treatment option more accessible to patients. These payment plans allow individuals to receive the necessary orthotics in conjunction with exercises, ensuring long-lasting relief without straining their finances.

The introduction of these affordable treatment plan packages is a testament to the clinic's dedication to improving the well-being of the community. By offering comprehensive care options and flexible payment plans, Align Health Collective is revolutionising the healthcare landscape and empowering individuals to prioritise their health and wellness.
