

## IMHO Reviews Best Upcoming Mindvalley Courses

*May 26, 2023*

AVVENTURA, FL - May 26, 2023 - PRESSADVANTAGE -

Mindvalley, the global online learning platform focused on personal growth and transformation, has seen a consistent surge of enthusiastic participation from over 12 million students across 80 countries. Vitaliy Lano, the owner of IMHO Reviews, asserts the potential benefits and transformative experiences that members can expect from the upcoming Mindvalley quests.

According to Lano, Mindvalley's unique online learning approach that blends neuroscience, peak performance, speed learning, and other techniques sets it apart from other platforms. The positive changes that people experience after joining the platform, stand testament to this methodology. As Mindvalley evolves and brings forth new Quests, Vitaliy believes that the new programs will help students achieve greater success.

In a continued exploration of the upcoming Mindvalley Quests, Vitaliy delves deeper into what members can anticipate from each new course offering.

The first Quest that IMHO Reviews talks about is Maye Musk's 7 Rules of Life. The seven-day online quest

offers members the opportunity to live life to its fullest, with Maye herself guiding and mentoring through each lesson. "I believe that this quest, rich with Musk's life wisdom and unique perspectives, can inspire members to revisit their own principles and strive towards enhanced personal fulfillment," shares Lano.

The second upcoming Quest discusses by IMHO Reviews is Picture Perfect: The Art of Looking Good in Photos. The Picture Perfect quest, guided by Paulius Staniunas, holds a unique allure. According to Vitaliy, this quest offers members the chance to unlock the secret to stunning photos, exuding confidence, and showcasing natural beauty in every shot. It's not merely about looking good in photos, Vitaliy suggests, but also about building self-assurance and enhancing one's personal and professional image.

Super Productivity is the third of Mindvalley's Quests that IMHO Reviews recommend taking. This 6-lesson Quest by Vishen, the founder of Mindvalley, is geared towards transforming productivity. "I see this Quest as a powerful tool for members seeking to maximize focus, overcome distractions, and achieve their goals at unprecedented speed. The cutting-edge techniques presented in this quest, can lead to a personal and professional breakthrough for members," says Vitaliy.

The fourth Quest that is, according to IMHO Reviews worth signing up to, is UNSHAKEABLE: From Self-Doubt to Self-Determination. Designed by Shadé Zahrai & Faysal Sekkouah, Vitaliy finds this Quest to be deeply transformative. The 10-lesson program aims to help members overcome self-doubt and achieve unshakeable conviction. Vitaliy anticipates that this Quest could serve as an empowering tool for members seeking to reclaim their true selves, crush their goals, and live a life of unparalleled fulfillment.

When speaking of the platform's benefits, Vitaliy shares his own transformative journey after joining Mindvalley. He also tells that Mindvalley boasts over 70 programs that cover an array of topics related to personal growth. The platform offers tools that encourage community motivation and daily micro-learning, making it more likely for people to complete a course than on other educational platforms. "The platform allows for daily microlearning that helps users complete personal growth programs," says Vitaliy. The new Quests are accessible to all existing members at no additional cost.

The upcoming Quests are expected to uphold the same standard of transformative learning as their predecessors. They are to be broken into bite-sized pieces and each day, members would be expected to complete one video-based lesson and one practice task. These quests are said to have a 333% better completion rate than regular online courses.

Vitaliy also reveals an exciting aspect of Mindvalley membership - Mindvalley Mentoring. This option allows students to take their self-discovery to the next level with more than 100 hours of training ideas curated by Vishen Lakhiani and imparted by over 80 renowned Mindvalley instructors.

In Vitaliy's view, Mindvalley quests will prove to be a valuable tool for personal transformation for existing members. The platform continues to commit itself to help individuals unlock their full potential, improve lives, and become better versions of themselves.
