

# Studio City Company Launches Picnic Baskets For Two

*December 16, 2015*

December 16, 2015 - PRESSADVANTAGE -

Picnic Baskets and Wine Totes, an online business in Studio City, CA, is proud to have launched their picnic baskets for two. The basket is perfect for the holiday season. The Kabrio Aviano picnic basket is already proving to be very popular.

"The Kabrio Aviano picnic basket for two is perhaps our best picnic basket yet," says Ana V from Picnic Baskets and Wine Totes. "It has everything anyone could possibly need for a fun and romantic picnic. We are so happy to see that it is already proving to be a very popular holiday gift and we can't wait to hear from our customers who have used it."

The picnic basket has been designed for carrying what is needed by two people. It is made from willow and has an insulated soft cover. It also comes with an integrated wood table, which makes it suitable to keep the wine and cheese accessories stable and away from the insects and bugs on the ground. The basket also contains two wine glasses, matching napkins, a stainless steel waiter style corkscrew, a cheese cutting board and a cheese knife. It is perfect for an afternoon in a park with cheese and wine or an outdoor concert under the stars.

The new picnic basket has only recently been launched, but it is already receiving very positive reviews. "I originally bought this for my girlfriend as a Christmas present," says Paul G. "However, when I received it, I made a spur of the moment decision. I packed it with cheese and wine, picked up my girlfriend and took her away on a romantic picnic. Inside one of the glasses, underneath the napkin, I had hidden an engagement ring. I'm happy to say that she said yes."

The Kabrio Aviano is one of the company's many picnic baskets. They have a huge range of other baskets, made from various materials and available in a range of designs, available on their website. The company is almost single-handedly reviving the fun of picnics, as their baskets are very tempting to use.

The company encourages everyone to visit their web page at <http://www.picnicbasketsandwinetotes.com/picnic-baskets/> to view their full range of baskets and more.
