

Top Salad Dressing Shaker Launched In New Summer Color

June 14, 2023

LITTLETON, MA - June 14, 2023 -

Littleton, MA based Cestari is pleased to announce the release of a new limited edition color of their popular salad dressing shaker. The shaker is being made available to customers just in time for the summer season, and those interested are advised to make their purchases quickly while stocks last.

At the moment, the shaker comes in three colors: black, green and white. Cestari?s summer color will not be available for long, so chefs should make their choices fast. If they do miss the limited run, however, the company points out that the shaker?s other colors are just as functional and will similarly be an asset in any kitchen.

Cestari?s salad dressing shaker is a smart creation, crafted by a team that is accustomed to working in the kitchen and understands what works best in different situations. A quick look at its features will help any customer understand why others have found this product so compelling, and the company is proud to acknowledge that it has received many positive reviews as well from others who have given the shaker a try.

In fact, many have taken to calling it the best salad dressing shaker they have ever used.

Some customers have even gone out of their way to explain exactly why they found themselves falling in love with it. ?I bought this salad shaker,? one says, ?because I was tired of having lots of large, expensive bottles of salad dressing in the fridge. It?s hard to toss a $5 bottle of dressing, even after I find out I don?t like it. I wanted to try making my own dressings, but only enough for a meal or two because I like variety.?

In their review, they say they find that, ?This shaker is very well thought out. It easily makes 8 oz. of dressing, and the mixer insert helps emulsify the ingredients. It?s sturdy, seals tight and is easy to clean. It?s easy to hold while shaking, and the handle [can be removed] to pour thinner sauces easily. Three recipes are printed on the outside, and I?ve tried two so far. The French Dijon vinaigrette is good and is easy to keep mixed because of the insert. The Ranch dressing was a real winner. I think I?ll probably thin the dressing a bit, which will give me enough for three meals and make the mixing a bit easier ? it?s pretty thick. Overall cost to make each dressing was less than a dollar, and I have lots more room in the fridge. This shaker is a winner.?

Others report finding certain quality-of-life inclusions to be well worth the shaker?s asking price. For instance, one customer comments that they appreciated how the shaker has measurements included on its side. Others stated an appreciation for the shaker?s sound quality and durable nature. Cestari expects the shaker to be loved the moment it arrives at a customer?s home, and the product?s existing reviews already support this prediction.

The shaker?s full list of features is impressive. A 10-ounce container, it can be used to prepare servings for as many as four people. As reviews point out, it has measurements included on the side, and the company says this was an intentional addition, included to give customers more flexibility in creating their own recipes. The shaker also has a leak-proof seal, making it easy for users to test out a variety of recipes without worrying about making a mess.

Notably, Cestari opted to manufacture the shaker out of borosilicate glass, which is heat safe. As such, it can be used to mix a variety of items even at much warmer temperatures. The company suggests that customers experiment with recipes that incorporate hot fat, for instance, especially since the integrated whisk can ensure all the shaker?s contents will be evenly mixed.

There are other reasons why this product is considered the best salad dressing shaker on the market. For one, customers also point out that the shaker is dishwasher safe. It is also BPA- and phthalate-free, and the company offers a no questions asked, lifetime replacement guarantee (which comes with all their products).

Cestari recommends that customers place their order now to get their hands on the limited edition summer color for this popular shaker. More information about the company and their products can be found on their official website and social media spaces.
