

Roofing Contractor Serving North Palm Beach Uses Advanced Home Improvement Technology to Help Clients Visualize New Roof

June 06, 2023

June 06, 2023 - PRESSADVANTAGE -

Mighty Dog Roofing of Palm Beach, based in North Palm Beach, FL, takes pride in pointing out that they are offering the Mighty Dog Visualizer, which is curb appeal visualizer app. This app allows the homeowner to visualize how the home would look when using certain roofing materials and colors. This allows the client to customize the roof's appearance even before the project is started or completed. The company provides roof inspection, roof repair, roof installation, gutter inspection, gutter installation, gutter repair, and commercial roofing. Those who are interested in learning more about this can visit company website.

They also offer free inspections for potential clients. This is also provided through the use of advanced technology. The Drone Superscan uses a drone to perform a 25-point inspection, which includes: inspection of skylights; inspection of valleys; inspection of step and counter flashing; eaves and rakes inspection; ventilation inspection; hip and ridge inspection; drip edge inspection; nail head inspection; inspection of roof sheathing or decking; roof edging inspection; inspection of gutter aprons; soffits and fascia inspection; plumbing stack inspection; chimney inspection; roof ventilation and exhaust system inspection; window inspection; gutters inspection; inspection of furnace caps and pipes; inspection of siding; attic inspection;

inspection of storm damage caused by the wind; inspection of storm damage caused by hail; downspouts inspection; aircon unit exterior inspection; inspection of step counter flashing; and foundation drainage inspection.

The drone-assisted inspection is distinctive not just because of the use of technology. It also provides precise and trustworthy data regarding the condition of the roof and other exterior parts of the home. They offer credible, objective, and verifiable inspection information via smart intelligence analytics. The 25-point inspection performed serves as the baseline health of the customer's roof, which will be used as reference for later inspections. The inspection report is acceptable to insurance firms and is preferred by real estate agents because they can offer prospective buyers a dependable report of the condition of the home before a sale is completed. Those who want more information about Mighty Dog Roofing can visit web site.

Mighty Dog Roofing of Palm Beach can also provide the Watchdog Maintenance service. This will include yearly inspections of the roof and other home exterior parts. This is designed to detect even minor issues that may worsen and become serious problems that will be costly to repair later on. Comparisons of the annual inspections will also be done, which will enable the roofing expert to forecast how long the roof will last. This allows the homeowner or property owner to prepare for the expensive roof replacement in the future.

Another unique feature of the services provided by Mighty Dog Roofing of Palm Beach is the Customer Vault. This is a storage of information for each particular customer that they keep for the convenience of the customer and Mighty Dog Roofing. Included information in the Customer Vault are: yearly updated drone inspection information; warranty information; photographs and videos; manufacturer information; insurance information repair records; reports for the customer's realtor/insurance agent; yearly reminders for the inspection of the customer's roof; monitoring of all repairs and replacements with dates, products, and services used; and all insurance details for easy and convenient claims handling.

Mighty Dog Roofing of Palm Beach is locally owned and operated by Austin Miller who is passionate about the business and achieving his personal and business goals. He is a virtuous leader in the community and he has displayed integrity and a strong work ethic.
