

Bling!, The Cornelius Premier Outdoor Lighting Company

June 07, 2023

June 07, 2023 - PRESSADVANTAGE -

Bling!, an outdoor lighting company in Cornelius, North Charlotte offers premier outdoor lighting. Their services include lighting for home exteriors, holiday and party events, and commercial lighting.

"At Bling!, we are excited about creating unforgettable memories with great lighting," says Anna Mushyakova, Co-Owner of Bling! in Cornelius. "We believe that lighting can enhance any home or a party, creating warm and welcoming environments. With our dedication to the area, we are excited to serve and brighten the community."

Anna Mushyakova and Stephen Howell are Co-Owners of the Bling! in North Charlotte. They have lived in Charlotte for over 28 years and have a deep understanding of the lighting needs of the community. When not working, the owners can be found enjoying time with their three kids and grandchild. Visit web site to learn more about Bling! of North Charlotte and the owners.

Bling! is a nationally-backed, premier lighting service provider. The company specializes in landscape, patio, holiday, event, permanent home exteriors, and commercial lighting services. The company offers a

large variety of lighting options including low voltage LED lighting, residential lighting, dock lighting, landscape lighting, string lighting, deck outdoor living lighting, and more.

The company also focuses on being green by only using LED lighting. LED lights are long-lasting and more energy efficient than other light choices. This ensures that homes and parties stay lit for a long amount of time, while also saving clients money with their efficiency.

The lights are also bright, which provide visibility, without creating harsh shadows or glare. Lights are warm and inviting, creating a pleasant atmosphere and eliminating dark shadows and pockets. This is most important for commercial lighting, where light can create a safer environment.

The lighting design specialists at Bingle are knowledgeable and understand how to place lighting strategically to illuminate the natural light levels in a particular space. They ensure that all spaces are lit evenly tastefully, so homes and spaces look inviting, not overly bright.

Bingle! of North Charlotte offers a large scope of services from permanent home exterior designs to one-day holiday events. All Bingle! clients can expect help with design consultations, demos, installation, maintenance, and if needed, take-down services.

To learn more about their process, visit company website, where lighting rates and services are listed. The website also has pictures of past projects and before and after photos.

The company understands that homes, parties, and even corporate buildings are transformed with the right lighting. Bingle's design specialists are there to help answer questions and offer suggestions on any outdoor lighting space.

The team is easy and simple to work with. All clients start by working with a design consultant who helps create and assess a client's needs and project ideas. These collaborative consultations can be done in-person or virtually.

After assessing the project, the team offers a lighting demo. These lighting demos use computer-based lighting technology to create a virtual demo of the project. Clients can envision and customize their projects, fine-tuning even the smallest details.

Next, the Bingle team will create a written proposal and then take care of the rest of the project including scheduling, installing, and take-down, if needed.

"Bingle was ten times cheaper than a competitor and beautiful," says Ross Bulla, a Bingle client. "In fact,

I'm keeping my warm white lights up all winter!?

The company ensures top-notch quality, offering both workmanship warranties and product warranties on all of their services. If takedown services are needed, Blingle promises installation, takedown, and storage services, with post-Christmas lighting takedown beginning in early January.

The team understands what a pain it can be to have just one or two lightbulbs go out. Because of this, Blingle offers a No Lights Out Guarantee. This ensures that if any light goes out, a specialist will be out within 48 hours to repair or replace the dead light.

Blingle! of North Charlotte has been featured in neighborhoods all around the area, specifically serving Cornelius and the surrounding community. To learn more about their rates, security measures, or services, contact the company at (704) 703-3168 or visit the company directly at their address.
