

EPDM Roofing Services Available At Maryland Roofing Company

June 30, 2023

COLUMBIA, MD - June 30, 2023 - PRESSADVANTAGE -

Columbia based roofing contractor Ridgeline Roofers Columbia is offering EPDM roofing services to Maryland customers. The skilled team of professionals at Ridgeline Roofers Columbia are committed to providing high-quality roofing services to meet all of their customers' needs.

As the Ridgeline Roofers Columbia explains, EPDM (ethylene propylene diene terpolymer) is an extremely durable synthetic single-ply rubber roofing membrane that is widely used in buildings in the US and worldwide. It has been the preferred choice for the low-slope commercial roofing industry for over 40 years. EPDM is made of two primary ingredients - ethylene and propylene - both of which are derived from oil and natural gas.

EPDM is available in both black and white, and is sold in a broad variety of widths and in two thicknesses (45 and 60 mils). EPDM can be installed either fully adhered, mechanically attached or ballasted, with the seams of the roofing system sealed with liquid adhesives or specially formulated tape. According to market surveys

from Building Design and Construction, and Roofing/Siding/Insulation magazines, and the National Roofing Contractors Association (NRCA), EPDM is the number one roofing choice of architects, roof consultants, and contractors for both new construction and replacement roofing projects.

Ernest Krebs from Ridgeline Roofers Columbia says, "For low sloping roofs, you really can't ask for a better roofing material than EPDM. A properly installed EPDM roof can mean you have around 25 to 30 years free of stress about leaks. Granted, this depends quite a bit on the weather and a number of other factors, but it goes without saying that EPDM roofs are a great choice for homeowners looking for long-lasting, effective roofing materials."

He continues, "If you are looking for a new roof installed or want to replace an existing roof, our team at Ridgeline Roofers will be happy to help you. We can get you set up with an EPDM roof very easily, but we also provide a variety of other services. If you want a roof inspection, roof repair, or gutter cleaning in Howard County, you can always rely on our team here at Ridgeline Roofers Columbia."

As the locally owned-and-operated roofing company explains, anyone who wishes to work with them can get the process started at once. Property owners may simply get in touch with a roofing professional from Ridgeline and arrange for an estimate. Depending on the property, Ridgeline will either provide an estimate using satellite imagery or dispatch a professional to perform an inspection in person.

Once the estimates are provided, should the property owner decide to work with Ridgeline, the team will get started immediately, ordering materials and scheduling the project. Once it is completed, the team will conduct a final inspection to ensure that everything was done to the customers' satisfaction. Any concerns will be addressed as needed.

Ridgeline Roofers Columbia has earned great praise from their community for their excellent services. David H. writes in his review, "I want to thank the team at Ridgeline Roofers Columbia for the fantastic job on my roof and gutters. They were professional and hard working, and got the job done in two days. The price was the best value, and none of the other roofing companies I called could beat it. I would most definitely recommend Ridgeline Roofers Columbia. In fact, I already have! Thanks again, guys."

In another review, Ora G. writes, "Ridgeline Roofers Columbia replaced our roof and gutters a few weeks ago. The insurance claim procedure was hassle-free for us because of the staff's assistance. Ernest provided an estimate for the job and then kept us updated on progress every step of the way. This company provides excellent customer service and quality roofing services around Columbia, MD. They gave us options to choose from so we could find the best fit for our budget."

More information about the full range of services offered by Ridgeline Roofers Columbia can be found at the company's official website. Ernest Krebs encourages interested parties to get in touch with him directly for any additional questions or concerns. Social media users can find the company on Facebook, Instagram, Twitter, and YouTube.
