

Dr. Mark Hickman Invites Patients to Find Out the Price of a Vasectomy Reversal at His Ministry in New Braunfels

June 20, 2023

New Braunfels, TX - June 20, 2023 - PRESSADVANTAGE -

Dr. Mark Hickman is inviting families from across the United States to visit his clinic in New Braunfels, TX, and benefit from his life's mission of making vasectomy reversals more reliable and affordable.

As the founder of one of the most popular vasectomy reversal ministries in the country, Dr. Mark Hickman has performed over 1,300 vasectomy reversals since he began offering his services decades ago. His efforts have brought the joy of parenthood to countless families who thank him profusely for the life-changing experience, especially due to how accessible Dr. Hickman has made it.

With over 26 years of experience as a minimally invasive surgeon, Dr. Hickman has used his unparalleled knowledge of microsurgery to drive down the price of a vasectomy reversal. He is an expert in laparoscopic procedures, has invented several surgical instruments, has been awarded a U.S. patent, and is recognized as a contributor to several other important minimally invasive patents.

Today, Dr. Hickman offers two all-inclusive affordable options at his clinic. The microsurgical vasectomy reversal cost option of \$3,300 includes local anesthesia and an oral sedative. The \$4,200 offer is performed under IV sedation and is administered by a Board Certified Anesthesiologist. Both microsurgical options are all-inclusive with no hidden fees.

When asked about what compels him to help patients at his ministry, Dr. Hickman says, "As a Christian, I have always felt strongly about the lies that are being peddled by medical professionals about the virtues of vasectomies under the pretense of family planning. After realizing just how many of those who went through with it now regret their decision, I made it my life's mission to help them get back on the path that they strayed from, back towards God. So, you can say that the work that I do here at Microsurgical Vasectomy Reversals is an extension of my dedication to Him."

The conviction that Dr. Hickman has in his mission is evident in the work that he does outside of his professional clinical practice. He is an active member of the church. He became involved with and is passionate about the Men's ACTS Retreat Ministry and currently serves on the Apostolate Board for the North American Province of the Missionaries of the Holy Family. He also serves on the Board of Directors of TIPHER (The Institute for Public Education, Health, and Research).

During the vasectomy reversal procedure, Dr. Hickman performs a microsurgical repair of the vas deferens with a powerful operating microscope and fine nylon suture that is much finer than hair. A typical repair requires 10-15 stitches. The goal of the procedure is to create direct and careful alignment of the lumen of the two ends of the vas deferens and a watertight closure for a higher success rate.

The clinic in New Braunfels has received tremendous praise from patients, both local and those who visit from across the country, for its helpful and compassionate staff, the affordability of the procedure, and the assurance that Dr. Hickman's steady hand brings. Currently, on its Google Business Profile, the clinic has a near-perfect overall rating of 4.9 out of 5.0 from 65 reviews.

A recent review says, "Had my reversal done 2 days ago. Mark and his team were nothing but professional! I had mine done under local anesthesia and it was not nearly as bad as I thought it would be. The pain was minimal, and I fell asleep halfway through the procedure. Thank you so much for answering all my wife and I's questions. We are looking forward to having a baby and will keep you updated! God bless you!"

Another patient writes, "All the information that I needed was given before the operation. Every step was explained, and I was guided through the process. Very professional staff and Dr. Hickman was extremely confident with his performance. I will recommend him to family and friends."
