Phoenix Home Remodeling, a home remodeling company based in Chandler, AZ, is helping local homeowners design and bring to life their dream bathroom space with several modern upgrades and renovations.

With a unique and innovative design-build approach, Phoenix Home Remodeling gives its clients unprecedented choices to design and tweak the final look of their home upgrade. The company?s methodology allows clients to ?test drive? their project and get a detailed concept of what they are paying for before the construction agreement is even signed. Since every project is meticulously planned, homeowners can rest assured that there will be no hidden fees when it is complete.

To help its clients create visually stunning and inviting contemporary bathroom spaces, the company?s contractors can install a wide range of accessories and additions such as heated towel bars, vanity

countertops, vanity cabinets, floating bathroom vanities, heated floors for the winters, tile flooring, new faucets, crown molding, tile "rugs" which are accented tile sections to personalize the bathroom floor, coffee bars, chandeliers, home automation systems, comfort-seating, entertainment centers, storage systems, frame-less glass showers, shower benches, shower shampoo niches, and much more.

The company can also help design and build elderly, handicapped, and ADA Accessible bathrooms, perform tub and shower or whole bath remodels, install walk-in tubs, remove the bathtub entirely to create a large spa-like shower, remove walls to open up the space, add walls and doors for more privacy, add more lighting, perform all the electrical work including extra plugs, lighting fixtures, and heat lamps, add electric fireplaces to create a bathroom sanctuary, install safety bars, or anything else that the client can imagine.

The spokesperson for Phoenix Home Remodeling talks about how clients benefit from its streamlined design-build process by saying, ?You may have heard horror stories of contractors promising too much and then underdelivering when they don?t stick to timelines or ask for more money to finish the job. Our design-build process has been created to eliminate all ambiguity and give you a clear picture of how your bathroom, kitchen, or any other part of your home will look when we are done. So, whether it is a minor upgrade to your shower or storage or a complete bathroom overhaul, Phoenix Home Remodeling is the top contractor to work with in Tempe.?
