

Alpha Therapeutics Pioneers in Providing Industry-Leading, Doctor-Formulated CBD Products

June 12, 2023

June 12, 2023 -

Alpha Therapeutics, LLC, a frontrunner in manufacturing and distributing industrial hemp and CBD products, upholds its commitment to delivering premium CBD-based offerings tailored to the medical and athletic sectors. With a product line of high-quality, extra strength CBD oil for chronic pain and CBD topicals, the company has taken a leading role in delivering doctor-formulated solutions for pain mitigation and management benefits for humans, dogs, and horses alike.

Maintaining an unwavering focus on the quality of their offerings, Alpha Therapeutics meticulously ensures that every CBD, CBG, and CBN product in their line is thoughtfully crafted from organic, fair-trade raw materials. This includes a diverse range of products, from their CBD oil tinctures and healing balms to their pioneering CBG and CBN products that leverage the lesser-known, yet equally potent, aspects of the hemp plant.

Each item undergoes rigorous triplicate testing to guarantee potency, purity, and safety, a testament to Alpha

Therapeutics' steadfast commitment to exceptional quality control. This meticulous approach ensures that all cannabinoids used in their products, whether CBD, CBG, or CBN, maintain the therapeutic potency intended for customer use.

This careful craftsmanship allows customers to harness the significant therapeutic properties of CBD, CBG, and CBN, providing a robust spectrum of benefits without the psychoactive elements found in medical marijuana. Through their comprehensive product line, Alpha Therapeutics is not only raising the bar for CBD products but also pioneering the future of CBG and CBN products, leading the way in holistic, plant-based therapeutics.

"Alpha Therapeutics is proud to present our flagship products - the CBD pain stick and the extra strength CBD oil for chronic pain. Each is meticulously designed to offer rapid relief for individuals suffering from chronic and acute pain," Geoff Dada, owner of the company, explains. "Through extensive research and innovation, we've harnessed the power of CBD oil to enhance the body's natural healing process, providing a safe and potent alternative to traditional pharmaceuticals."

Alpha Therapeutics' CBD topicals are crafted with the same level of diligence. Providing a targeted approach to pain management and overall wellness, these products are a go-to for individuals seeking natural solutions to everyday discomforts - from athletes grappling with post-workout recovery to seniors managing arthritis pain.

"The mission of Alpha Therapeutics extends beyond the realm of product quality," adds Dada. "We aim to lead the industry in bringing the highest quality CBD-based products to the marketplace, increase accessibility, and educate consumers about the numerous benefits of CBD. Our belief in transparency and the principle that consumers should fully understand what they are putting into their bodies is what drives us."

Geoff Dada further shares his vision for the company, "At Alpha Therapeutics, we strive to revolutionize how people perceive and use CBD products. We believe in the extraordinary healing potential of CBD, and we are dedicated to delivering this potential to consumers in the form of the highest quality, doctor-formulated CBD products on the market."

With a pledge to advance the industry and enhance consumer access to safe, effective CBD products, Alpha Therapeutics is carving a path in shaping the future of natural, plant-based pain mitigation and management. As they expand their product line and reach, they vow to maintain their steadfast commitment to quality, transparency, and education.

Alpha Therapeutics, LLC is a leading manufacturer and distributor of high-quality, doctor-formulated CBD products. With a focus on serving both the medical and athletic markets, they specialize in the production and distribution of CBD oil tinctures and healing balms. Their commitment to organic, fair-trade raw materials and rigorous testing protocols ensure that every product they release offers superior pain management benefits without the psychoactive element of medical marijuana.
