

## **Dr. Hickman Shares His Reasons for Working to Reduce the Price of a Vasectomy Reversal**

*June 23, 2023*

New Braunfels, TX - June 23, 2023 - PRESSADVANTAGE -

Dr. Mark Hickman from Microsurgical Vasectomy Reversals in New Braunfels, Texas, is urging men and families to find out how his decades-long efforts at the clinic have dramatically reduced the price of a vasectomy reversal.

Dr. Hickman received his medical degree from the University of Texas Medical Branch in Galveston, TX, at just 23, following which he underwent extensive training in General Surgery Residence at the University of Texas for five additional years. It was during his residency that he was introduced to microsurgery with Plastic and Reconstructive Surgeons and immediately recognized the potential impact the technology could have on a wide range of medical procedures including vasectomy reversals.

As an expert and early pioneer in the field of microsurgery, Dr. Hickman has spent years perfecting the vasectomy reversal procedure to bring down its cost and make it more affordable for everyone who wants it. Today, he teaches minimally invasive techniques to other surgeons, has invented several surgical

instruments, has been awarded a US patent, and is recognized as a contributor to several other important minimally invasive patents.

His passion for working towards reducing the cost of vasectomy reversal stems from his strong Christian faith. He is an active member of his church and is involved with the Men's ACTS Retreat Ministry. He also currently serves on the Apostolate Board for the North American Province of the Missionaries of the Holy Family and on the Board of Directors of TIPHER (The Institute for Public Education, Health, and Research).

"I started with a mission to change the public perception of vasectomies," says Dr. Hickman. "I believe the procedure is misguided and leads to a litany of problems for the men who undergo it. It also affects their families, robbing them of their ability to find joy again with parenthood. After countless reversal procedures, I have seen the impact that I've had on my patients' lives, helping them combat depression, returning them to their more virile days, and lifting what is frequently described as the 'male fog'."

Dr. Hickman offers two all-inclusive affordable options to reverse a vasectomy. The microsurgical vasectomy reversal cost option of \$3,300 includes local anesthesia and an oral sedative. The \$4,200 offer is performed under IV sedation and is administered by a Board Certified Anesthesiologist. Both microsurgical options are all-inclusive with no hidden fees.

Patients from all over the United States have time and time again thanked Dr. Hickman and his team for helping them get back their God-given gifts and bring a new life into this world. The clinic even boasts a near-perfect overall rating of 4.9 out of 5.0 on its Google Business Profile from over 60 reviews with patients praising the compassionate care offered by the doctor and the rest of the clinic staff, the affordable vasectomy reversal options, and the life-changing results.

A recent 5-star review says, "Had my reversal done 2 days ago. Mark and his team were nothing but professional! I had mine done under local anesthesia and it was not nearly as bad as I thought it would be. The pain was minimal and I fell asleep halfway through the procedure. Thank you so much for answering all my wife and I's questions. We are looking forward to having a baby, and will keep you updated! God bless you!"

An out-of-town patient recounts their experience by writing, "My husband and I flew from TN to see Dr. Hickman back in April 2021. My husband had his vasectomy for about 10 years. Although we have not been successful, I cannot say enough wonderful things about Dr. Hickman and his staff. He was kind, patient, he prayed with us. Just a wonderful man of God! We are trusting in our Redeemer and continuing to pray for our little one to come in His time. Thank you to Dr. Hickman and his staff."

Readers can contact Microsurgical Vasectomy Reversals by Dr. Mark Hickman in New Braunfels at (830) 660-0600 or drhickman@micro-vas-reversals.com to inquire about the procedure and book an appointment.
