

Bling! Of Toledo Offers Outdoor & Christmas Lighting Services

June 21, 2023

June 21, 2023 - PRESSADVANTAGE -

Bling! Of Toledo is an outdoor lighting company offering outdoor and Christmas lighting services. The lighting company's services include year-around lighting for home exteriors, one time holiday and party events, and commercial lighting. No matter the season, Bling! is ready to serve.

"We used Bling! for the first time this year and I highly recommend them," says a past customer. "They were courteous, friendly, and fast! Our lights were installed beautifully and uninstalled with the same ease. The funny thing is we never saw them, but I'm extremely happy with their work. We will continue to use them for sure, 5-star work!"

Bling! offers many unique holiday lighting experiences. Because they only use LED lights, homes will shine brightly with their work. While most people think of lighting up their homes for Christmas, Bling! also offers their holiday services for Hanukkah, Valentine's Day, Halloween, Fourth of July, and more. Visit web site to learn more about the company's holiday lighting services.

If looking to put up lights this Christmas season, Bling! is ready to help. The company does both set up and

take down. Customers who use Blingle! for the Christmas holiday can expect their lights to be taken down in a timely fashion, in January after the holiday season.

Blingle! of Toledo is a nationally-backed, premier lighting service provider. The company specializes in landscape, patio, holiday, event, permanent home exteriors, and commercial lighting services. They offer a large variety of lighting options including low voltage LED lighting, dock lighting, patio lighting, residential lighting, landscape lighting, string lighting, and deck outdoor living lighting.

As mentioned already, the company only uses LED lighting. This is because LED lights are better for the environment and for clients. LED lights are long-lasting and more energy efficient than other lighting choices. This ensures that homes, parties, or buildings stay lit for a long amount of time, while also saving clients money with their efficiency.

Blingle!'s landscape lighting designers make sure to use lights that are warm and inviting, creating a pleasant atmosphere and eliminating dark shadows and pockets. The lights are also bright, which provide visibility, without creating harsh shadows or glare. This is especially important for commercial lighting, where lighting can create a safer environment and deter robbery and other crimes.

Lighting contractors at Blingle! understand how to place lights strategically to illuminate the natural light levels in any space. They ensure that all spaces are lit evenly and tastefully, so homes, buildings, or parties look inviting, and not garish or overly bright.

To learn more about Blingle!'s lighting process, visit company website, where lighting rates and services are listed. The website also lists pictures of past projects, so potential customers can see the possibilities and look at ideas.

Working with Blingle! of Toledo is easy. Potential clients start by meeting with a lighting consultant who can explain different lighting options and also assesses the project's needs and scope. These consultations can be done in-person or remotely.

Next, the Blingle! lighting team will use computer-based lighting technology to create a lighting demo. With this demo, clients are able to envision their projects and fine-tune the final details.

The rest is left up to the Blingle! team, who takes care of the lighting scheduling, set up, maintenance, and take-down. The company ensures top-notch quality, offering both workmanship warranties and product warranties on all of their services.

Blingle! understands the pain of having just one or two lights go out in a string of lights on a house. Because

of this, Bingle offers a "No Lights Out Guarantee." This ensures that if any light goes out, a specialist will be out within 48 hours to repair or replace the dead light.

The premier lighting company has worked in many local neighborhoods in Toledo, Maumee, and the surrounding area. To learn more about their rates, security measures, or services, contact the company at (704) 703-3168 or visit the company directly at their address.
