

Jacksonville Lighting Contractors, Bling! Now Serving The Sunshine State

June 27, 2023

June 27, 2023 - PRESSADVANTAGE -

National franchise Bling! Premium Lighting is excited to announce its expansion to Jacksonville, Florida. Bling! specializes in outdoor lighting services for residential properties, commercial properties, and special events. The new Bling! Jacksonville team is thrilled to light the skies of the Sunshine State. Owner Dipak Rajhansa spoke about the company's bright future.

"It brings me so much joy to serve our Jacksonville community through Bling!," says Rajhansa. "At Bling! we believe lighting can dramatically transform a space with captivating, emotion-evoking designs. This is why we are committed to providing excellent designs and outstanding service to each project."

Rajhansa spent the majority of his professional career in the corporate world, but has always held a lifelong dream to own his own business. With the launch of Bling! Jacksonville, Rajhansa and his team are primed and ready to bring the best of lighting to the North East Florida city.

Bling! Jacksonville offers year-round outdoor luxury lighting and maintenance, creating designs for holidays, special events, and permanent lighting for homes and businesses. They can install lighting for decks and

docks, patios and porches, landscapes and rooflines, and so much more. They also have a myriad of lighting types, from low voltage LED, to string lights, patio chandeliers, path lights and more. For a complete list of services and designs, visit company website.

“Lighting doesn’t just have to be for holidays or special events,” says Rajhasan. “We can add lighting to a gazebo for more flair, a restaurant patio for ambient dining, or even to a fire pit to add more drama. We can string lights around tall palms erected in front of your home or business, and we can even add spruce up a boring parking lot with enchanting lighting. With Blingle!, the possibilities are endless!”

When it comes to lighting in Jacksonville, weather is a concern for businesses and homeowners. While the city attracts lots of people for its warm, sunny weather, Jacksonville is also prone to thunderstorms and high humidity. Additionally, the city can be at risk for hurricane weather with the active Atlantic coast close by. With heavy rains a concern, lighting can be at risk for degradation.

This is why Blingle! Jacksonville only uses state-of-the-art, professional grade lighting equipment. Their licensed contractors install lights following all codes as advised by county regulations. Plus, with Blingle!’s “Twice as Bright, No Lights Out Guarantee” clients can request maintenance for any damaged lights, free of charge.

“Our clients love knowing that they’re working with the best and brightest in the lighting industry,” says Rajhansa. “Our professional grade lighting is twice as bright as anything you’ll find in store. And our contractors make installation easy, simple and beautiful. If you have any issues at all, just give us a call, and our team will be there to fix it.”

Blingle! has earned a stellar reputation as a national franchise, receiving a number of 5 star reviews on Yelp and Google. Clients remark on their speedy service, their simple to use technology, their mesmerizing designs, and their unbeatable customer service. With this new expansion to Jacksonville, residents of the city can expect the same high quality service with Rajhansa and his team.

While their physical address is based in Jacksonville, Blingle! Jacksonville serves a number of Floridian communities, including Ponte Verda Beach, Amelia Beach, Amelia Beach, Florida

Atlantic Beach, Baymeadows, Bryceville, Fernandina Beach, Jacksonville Beach, Macclenny, Neptune, Ortega, Southside, and Mandarin, Florida.

To book a lighting project with Blingle! Jacksonville, simply schedule an initial consultation by contacting them through their website at <https://blingle.com/jacksonville-florida>. During the consultation, clients can discuss your lighting needs and project goals. Afterward, Blingle! will conduct a project assessment, develop a customized lighting design, provide a detailed proposal with cost estimates, and establish a formal

agreement. Their experienced team will then handle the installation process, ensuring a seamless and hassle-free experience for clients from start to finish.

Bling! Jacksonville is excited to serve their NorthEast Florida community, making homes, businesses and events brighter all year long. For more information, visit web site or contact them at 940-289-5543. Their physical address is 10221-3 Beach Boulevard, Jacksonville, FL, 32246.
