White Dumpster offers two primary dumpster sizes to cater to a variety of waste management needs, ensuring that every project, big or small, can be accommodated.

The 10-yard dumpster, measuring 10' x 8' x 4', is an ideal choice for smaller projects. This could include home cleanouts, minor renovation projects, or small-scale construction jobs. It's the perfect size for disposing of items like old furniture, appliances, or yard waste. Despite its compact size, this dumpster can handle up to 2 tons of waste, making it a powerful tool for efficient waste management.

For larger projects, White Dumpster offers a 15-yard dumpster. With dimensions of 12' x 8' x 5', this larger container is suited for more substantial tasks such as commercial construction, large-scale renovations, or extensive property cleanouts. Like its smaller counterpart, the 15-yard dumpster can also handle up to 2 tons of waste.

Both dumpster sizes come with the option of extending the rental period beyond the standard 7 days for a small additional daily fee, providing customers with the flexibility they need to complete their projects without stress. This commitment to customer convenience and satisfaction is a hallmark of White Dumpster's service.

White Dumpster is more than a dumpster rental company. It's a reliable partner for homeowners and businesses in Canton, OH, and the surrounding areas.
