Washington Eye Doctors Celebrates 75th Anniversary in Eye Care

June 22, 2023

Washington, District of Columbia - June 22, 2023 -
Arlington-Ballston, VA {DATE} ? Washington Eye Doctors is celebrating their 75th anniversary of providing a wealth of eye and vision care services to the Washington, D.C., community. Washington Eye Doctors started as a one-location practice in the heart of Washington, DC and was eventually owned by Jay Klessman, O.D., who was later joined by Michael P. Rosenblatt, O.D. After Dr. Klessman?s departure, Dr. Rosenblatt has carried on the practice?s mission of helping patients ?love what they see,? by providing tailored eye care services and customized eyewear.

Dr. Rosenblatt and his team ? including Steven Abraham, O.D., and Brooke Justis, O.D. ? continue to push the limits in optometry, adopting the latest technology and implementing techniques and treatments that drive the best results.

?Being one of the only locally owned and operated practice in the area since 1948, our core focus has remained ? and always is ? on our patients and their experience,? said Dr. Rosenblatt.? We want you to love what you see, and there?s nothing better than seeing firsthand how our talented doctors incorporate that passion into their care and hearing how much it means to our patients.?

To better serve the needs of its patient base, Washington Eye Doctors expanded from its downtown Washington, D.C., office to additional locations in Chevy Chase, MD, and Arlington-Ballston, VA. They hoped that by having offices both downtown and in its suburbs, their eye doctors could make eye care more accessible to everyone in the community.

?I?m so excited to be a part of Washington Eye Doctors as we approach our 75-year milestone and expand our reach throughout the community,? Dr. Justis said. ?We?ve made significant strides with our tailored and advanced eye care, but nothing compares to the dedication and compassion we see daily in the offices. Our doctors get to know their patients, walk them through their results, and customize their treatment to their

individual needs. I look forward to many more years with the practice and our amazing patients!?

At Washington Eye Doctors, patients have always received unique care, and many updates and innovations over the years have helped them to continue providing patients with the most comfortable and satisfying experience possible. Their doctors always conduct thorough eye exams using cutting-edge technology, like nerve or pupil testing, refraction, or slit lamp exams, to get a comprehensive profile of patients? overall eye health and vision clarity before determining treatment. Using big screens and clear imaging, Dr. Justis and Dr. Abraham will also take extra time to ensure patients understand their eye health and how they can manage any issues.

?From the moment I joined Washington Eye Doctors, I knew I was part of an exceptional team and practice that prioritizes their patients in every way. We?re locally owned, and we all have a deep appreciation for the community,? said Dr. Abraham. ?It enables us to go the extra mile for our patients, whether that?s offering curated, customized eyewear or constantly upgrading our technology to better identify and meet our patients? prescription needs. I?m proud of the growth we?ve experienced over the last 75 years, and I can?t wait to see what?s in store for us in the years to come.?

Washington Eye Doctors is currently accepting new and existing patients at its Washington, D.C., Arlington-Ballston, VA, and Chevy Chase, M.D. offices, which allows us to serve patients in Courthouse, Clarendon, Virginia Square, Bethesda, Rockville, Somerset, Silver Spring, and the surrounding communities.

About Washington Eye Doctors

An independent and locally owned eye care practice with a long-standing reputation, Washington Eye Doctors is noted for their premium, full-service eye care. With a focus on investing in and utilizing advanced technology, their commitment to patient care has differentiated their practice since their establishment in 1948. Their in-house finishing lab features quick turn-around times for their selection of eyewear, which caters to families as well as eyewear aficionados.
