

CBD Shop in Mesa Celestial Stem Guides Pet Owners on the Right CBD Dosage for Their Companions

July 20, 2023

July 20, 2023 - PRESSADVANTAGE -

Celestial Stem, a supplements store offering premium CBD and non-CBD wellness products for people and pets in Mesa, Arizona, is advising customers on the perfect CBD dosage for their furry friends.

Celestial Stem was born out of the founder, Jason Axtolis' frustration as a CBD consumer. As the loving parent of three large breed senior rescue dogs, Jason was unable to find affordable CBD products for pets that had a large enough concentration to help ease their health issues. So, identifying the gap in the market and wanting to give other pet owners like him high-quality reasonably priced options, Jason founded Celestial Stem.

The CBD shop in Mesa offers a wide range of products for both people and pets, with the latter being especially served with higher dosage options that can't be easily found at other stores. "Larger doses for pets are very rare in the industry," says Jason. "We never cut any corners on the quality as all our animal products are human grade, organic, and with vegan options. Head over to our website to browse through our pet offerings including treats, tinctures, and almond butter."

To help pet owners who can't determine the right dose for their beloved companions, Celestial Stem has made available a simple and intuitive chart on its website that provides the ideal CBD dosage corresponding to body weight. The general rule of thumb is to give pets a dose of 1 to 2 mg per 10 pounds of body weight for well-being and between 2 to 5 mg per 10 pound for therapeutic effects.

Jason explains, "Remember that every pet is different. If this is your pet's first time benefiting from the calming and soothing effects of CBD, we recommend that you start conservatively with a small dose once per day and see how they react. Instead of a large dose, we always prefer smaller doses once in the morning and once before bed if possible. Some days are more challenging than others, so always be flexible and adjust as needed. We also have a great article under the learn section of our website that chronicles my trial and error of finding the proper dosage for my four dogs. We even have higher dosages for medium- and large-size pets, to help them relax and recuperate after a long day of adventure and fun."

Celestial Stem's CBD pet products use phytocannabinoid rich hemp oil which is high in CBD. They offer full and broad spectrum products. Meaning they also contain the secondary cannabinoids that are present in the hemp plant making them strong and potent products. They offer products with and without THC. None of the products are psychoactive. Celestial Stem's products also go through rigorous third-party testing to ensure that the products meet the company's standards for purity and concentration.

Jason's venture has struck a chord with residents in Mesa and nearby areas who regularly flock to Celestial Stem to stock up on CBD products for themselves and their fur babies. The store boasts a perfect 5.0 out of 5.0 rating on its Google Business Profile from nearly 40 reviews with customers praising the variety of products on offer, their potency, and their affordability.

A recent review says, "I buy from here for all my dog needs and all 3 of my pups have loved everything! I use CBD oil for my senior pup's joints, and I can see a noticeable difference in the way they walk after getting the oil and they seem to love the taste as well! My other favorite is the dental chew stars. They love them and I love that their crate smells a lot better!"

Another pet owner writes, "I wouldn't be able to leave the house without being worried about my dog crying by the door the entire time I'm gone. I gave him half a dropper before I left and now, I watch him on the camera just snoozing. No more having to worry about him being sad all day while I'm at work. Everything else I tried didn't work and I don't know what the ingredients are in most of them. This place has the best stuff!"
