Somerset Eye Care Celebrates 22 Years of Helping Families See Better

July 05, 2023

North Brunswick, New Jersey - July 05, 2023 -
North Brunswick, NJ ? Somerset Eye Care, which is known for providing families throughout the region with exceptional eye care, is proud to announce its 22nd anniversary of helping patients see the community they live in more clearly. Co-Founders Bethany Fishbein, O.D., and Jonathan Fishbein, O.D., started Somerset Eye Care in 2001 after working at other practices and wanting to create a space where patients, staff, and the entire community were all treated like family members.

Since opening, Somerset Eye Care has earned a reputation for investing in state-of-the-art technology to give patients the vision they need and improve their quality of life through comprehensive eye exams, myopia management plans, and eye disease treatment. The practice also offers a wide range of eyeglasses, contact lenses, and other eyewear.

"Jonathan and I consider Somerset Eye Care as ?our first child,? and we?re so excited to celebrate its 22nd anniversary,? said Bethany Fishbein. ?It has been an incredible journey serving our community with first-rate eye care services. Looking ahead, we?re eager to keep bringing our patients top-notch vision care, because one thing that?s remained constant in our 22 years is that their eyesight is always our utmost priority. We

remain committed to enhancing the quality of life for individuals and families throughout the region, and we are so grateful for the trust and support we have received from our neighbors over the years."

The team at Somerset Eye Care is completely committed to taking care of its patients. As a locally owned, family-run eye care practice, the office was built to be a warm, welcoming environment that provides reliable eye care services. Using advanced tools and equipment, Somerset?s optometrists are able to give patients the best possible eyesight and eye care experience.

"When I co-founded Somerset Eye Care with Bethany, our vision was to establish a place where every individual is treated with the care and respect we would want for ourselves and our loved ones,? said Jonathan Fishbein. ?As we celebrate our 22nd anniversary, I am incredibly proud of the compassionate environment we have fostered, a place where patients, staff, and the community are valued like cherished family members. Here's to many more years of providing eye care for our entire community!"

As Somerset continues to serve patients, the practice has adapted to changes in techniques and technologies to give its patients cutting-edge eye care. The Somerset team has also made sure their office stays up-to-date and remains a comfortable and welcoming environment for patients.

"I'm so proud to work at Somerset Eye Care because we embrace the idea of always doing more for our patients and giving them an even more phenomenal experience," said Practice Integrator Larissa Steinberg. "As someone who has served at Somerset Eye Care for years, it's been incredible to witness how our team consistently evolves and how we incorporate the latest advancements in technology and refine our processes, even now in year 22! We remain committed to enhancing every aspect of our practice, empowering our patients to enjoy the highest standard of eye care in an environment that is welcoming, efficient, and tailored to their needs."

Now celebrating its 22nd year of service to the area, Somerset Eye Care is now accepting appointments for both new and existing patients at its office in North Brunswick, New Jersey.

About Somerset Eye Care

Located in North Brunswick, Somerset Eye Care is a family-owned optometry practice with a reputation for offering excellent eye care services and eyewear for the entire family. Founded in 2001 on the belief of putting the patients above everything else, Somerset Eye Care?s core values are as clear as the eyesight they provide to patients. Somerset Eye Care also offers an extensive selection of eyewear, including eyeglasses and contact lenses, and believes in making incredible eye health services accessible to everyone in their community.
