Nicosia Based Insurance Company Offers Home Insurance Solutions

August 15, 2023

Aglangia, Cyprus - August 15, 2023 -
Trust Insurance, based in Nicosia, Cyprus, would like to talk about some of the home insurance solutions they have available. Trust Insurance Cyprus is among the top providers of home insurance in Cyprus, meaning homeowners can always be sure that they are in good hands when they choose to work with the Nicosia-based home insurance provider.

Home insurance is one of the best ways to protect a home in Cyprus. Insurance provides a layer of protection from unexpected risk, and depending on the type of coverage plan the client opts for, can be the difference between losing a piece of property to unforeseen disasters and simply being mildly inconvenienced. While homeowners are not legally required to have home insurance, it is one of the only ways in which one can be sure that the value of their home is protected.

All Trust home insurance plans come with a number of benefits and a wide range of coverage options to meet the unique, highly specific needs of various homeowners. The firm strives to turn homes into safe havens with their home insurance packages. They offer home insurance quotes online, making it easy for homeowners to look up exactly how much it is likely to cost them to protect their home.

The insurance provider has a number of policies that cover different types of risk. Standard policies cover damage caused by fire and theft, but clients have the option of choosing policies that cover specific parts of their property.

The insurance company?s most popular coverage plan is called Home Shield. Home Shield is a comprehensive home insurance plan designed specifically to protect homes from all kinds of risk. This is also Trust Insurance?s general plan, covering all kinds of risk. The building, its contents and even the client?s personal items, all fall under Home Shield?s protection whether the client is home or abroad. With Home Shield, clients also have the option of insuring their property with accidental damage coverage, which is the most comprehensive form of insurance on the market.

Additionally, Home Shield includes emergency home technical assistance services and consulting. This means 24-hour access to specialised technicians who can provide immediate solutions to plumbing, electrical and other issues. Should a client have need of a plumber, electrician or other specialist, Home Shield makes it so they can have one at their doorstep within a day.

Trust's Home Insurance is not only available to homeowners. Tenants regularly take out home insurance plans to protect themselves from all kinds of unforeseen disasters. Everyone wants to feel safe in their home, and Trust Insurance Cyprus understands, which is why they have programs for every specific need. Owners can choose to insure the building and contents of their home, while tenants can choose to insure the contents alone. Home Shield is flexible enough to allow both homeowners and tenants to find ways to protect themselves from risk.

In case of damage to a home, there are a number of steps an individual should take. Trust Insurance says, ?In the event of damage, try to keep details of the incident with photos, invoices or receipts from the municipality or local emergency services. Do not carry out repair work before obtaining the Company's consent. In the event of a major damage, an estimator is sent by the Company, and an evaluation assessment is performed. In the event of theft, a first oral report is provided to the Company. It is also necessary to report to the police and fully register the stolen property providing any evidence. The Claim Form should be completed and signed together with the Police Report and sent to the Company.?

The firm continues, ?Once the evaluation is completed, the Claims Department will contact you for the outcome result. During your insurance period, it is very important that you take all protective measures to avoid increase of damage but also measures to reduce the damage.?

For more information on the insurance programs available at Trust Insurance, clients may visit the company?s website. Both homeowners and tenants are invited to make use of the company?s free online quotes system. They may also get in contact with Trust Insurance through the website.
