

Gainesville Dental Associates Discusses The Benefits Of Dental Implants And Whom They Are Right For

July 24, 2023

July 24, 2023 -
Gainesville Dental Associates, a dental clinic based in Gainesville, VA, is helping local patients understand the restorative benefits of dental implants.

For many, dental implants are the perfect solution to missing teeth as they closely resemble natural teeth in their appearance. Made from a combination of porcelain and steel, dental implants are installed by placing a steel rod into the jawbone to take the place of the missing root and then affixing a porcelain crown on top. For patients who need a full set of teeth, implants can even be used as anchors for dentures that don?t slip or slide from the mouth.

?There are many reasons why you might opt for dental implants,? says Dr. Faline Davenport from Gainesville Dental Associates. ?Whether you lost your teeth to decay, extractions, or due to an unfortunate accident, your missing teeth might be a source of low self-esteem for you that you are trying to address. Missing teeth might also lead you to have a destabilized bite or cause difficulty eating or chewing. As one of the most

popular and effective restorative dentistry procedures, dental implants solve all these problems while also lasting for a long time.?

Dental implants look and feel like natural teeth, giving patients an improved appearance and a boost in their confidence. Unlike dentures, they don?t slip or move around in the mouth, allowing patients to chew, speak, and smile easily. Dental implants also stimulate the bone and prevent further bone loss. They don?t require adjacent teeth to be ground down, as is the case with dental bridges, making them less likely to develop problems down the road. Patients also prefer dental implants as they are easy to care for and don?t require any special maintenance or cleaning routines.

Founded in 1993, Gainesville Dental Associates has been serving patients for over 30 years now and has racked up several accolades along the way. It is an Invisalign Elite Preferred Provider, was on the list of Top Dentists from Northern Virginia Magazine in 2020, and made it to the Washingtonian?s list of Top 50 dental practices.

The clinic offers a range of treatments and procedures to patients in Gainesville, Warrenton, Haymarket, Bristow, Middleburg, and other surrounding areas. These include cosmetic dentistry services such as bonding, veneers, Invisalign, sedation, and emergency dentists, restorative dentistry services such as bridges, crowns, implants, dentures, and Teeth Xpress, and general dentistry services such as sealants, root canals, gum disease, 3d imaging, kids? dentistry, and more.

The Gainesville dentist office has been repeatedly praised by patients for its knowledgeable doctors, variety of dental services, and caring and compassionate staff that offers helpful customer service. On its Google Business Profile, it also boasts a near-perfect overall rating of 4.9 out of 5.0 from over 380 reviews.

A recent review says, ?I had the most amazing experience today at Gainesville Dental Associates. My hygienist Paula was the most perfect person for me. I have a lot of anxiety when it comes to dentists and she made me feel so safe and cared for the whole time. I cannot express how much her care meant to me. She walked me through the process and put my nerves at ease. I will continue to come back here each and every time for the positive environment and wonderful hygienists like Paula! Highly recommend!?

Another patient writes, ?This was my first visit with Gainesville Dental Associates, and I?m so grateful to have found them. I have extreme dental anxiety, and from the moment I arrived, they started to help me. They listened to my fears and found solutions to keep me comfortable. Throughout my procedure, Dr. Batra and Nini checked with me to make sure that I was ok. By the time I left, I was all smiles - something I could never say before about a dental visit. I can?t adequately express how amazing this wonderful group of professionals has been. Thank you!!?

Gainesville residents can inquire about the Gainesville Dental Associates dental implant services by contacting the dental clinic at (703)-570-6684.
