December 10, 2015 - PRESSADVANTAGE -

With Alzheimer?s disease affecting one out of nine older Americans and listed as the sixth-leading cause of death in the United States, the degenerative condition continues to raise red flags among health authorities and pose grave threat to the lives of millions prompting a US natural health firm to come up with a product that will reverse its progression.

Bri Nutrition, a California-based natural health supplement company, introduces a new product that has the potential to combat the progression of Alzheimer?s, along with other health advantage that benefits the brain and nervous system?a significant step to aid in the decrease of the prevalence of the condition among the American populace.

Klamath Blue-Green Algae Supplement

Klamath Blue-Green Algae Supplement is Bri Nutrition?s new product that brings the health benefits of blue-green algae to the brain, energy, and overall health. It is a 100% safe and all-natural, high-protein raw

dietary supplement powder extract plus in the form of 500 mg superfoods capsules.

Bri Nutrition Sales & Marketing Manager Thomas Steven Lamont said, "Our Klamath Blue-Green Algae is a product of years of research and studies to come up with a high-quality supplement amplified to effectively deliver the health benefits of blue-green algae to people."

"We want to help people who are at the risk of developing diseases like Alzheimer's to have access to all-natural supplements that have high potentials to alleviate their conditions," Lamont added.

Blue-Green Algae Effects on Alzheimer's

Gabriel Cousens, MD published his results in the Journal of Orthomedicine on the treatment of Alzheimer's Disease. Several case studies were presented where Klamath Blue Green Algae appeared to noticeably reverse the progression of this degenerative condition. Subsequently, Dr. Cousens has continued to advocate the use of Klamath Blue Green Algae especially for conditions related to mental and emotional functioning.

Today, extensive studies are still conducted to definitely prove the positive effect of blue-green algae to reverse Alzheimer's, but scholars say the potential remains high. Since Bri Nutrition Klamath Blue Green Algae is all-natural it is safe to take with low to no risk of side effects.
