

# D&A Building Services Inc. Is Offering Commercial Janitorial Services In Central Florida

*August 02, 2023*

August 02, 2023 - PRESSADVANTAGE -

D&A Building Services Inc., a professional property maintenance services provider based in Central Florida, is urging commercial property owners to find out more about its range of janitorial services.

Established in 1985, D&A Building Services Inc. provides total facility maintenance services, from janitorial to landscaping. Today, with its custom property maintenance services that are tailored to meet each client's needs, the company has established itself as one of the most trusted names in the business.

The company's janitorial services include but are not limited to floor maintenance, cleaning/stocking of restrooms, collecting/disposing of trash, ensuring doors are locked after hours, removing dust from all horizontal surfaces, day and evening janitorial services, disinfecting and sanitizing, electrostatic disinfecting, fogging, and supplies.

Apart from the company's range of janitorial services, D&A Building Services Inc. also offers COVID-19 disinfecting services, construction clean-up, window cleaning, pressure washing, landscaping, and other specialty services. It boasts offices all over Central Florida, namely in Jacksonville, Longwood, Tampa, and Dallas.

The spokesperson for D&A Building Services shares the reasons why its customers have come to trust and admire it by saying, "From the very beginning, we have had a keen focus on delivering high-quality services, on time, to help our clients make the most out of their commercial spaces. Paired with our integrity and commitment to ethical business practices, our crew of cleaners and maintenance personnel has earned our clients' respect, all of whom rely on us for keeping their properties inviting for their guests and customers."

D&A's crew follows all the recommended protocols which are a norm in the industry to ensure every job

is completed to its high standards. The crew members use specialized cleaning equipment and methods as well as environmentally friendly cleaning compounds for a spotless and safe working environment. The company also periodically retrains its staff to meet updated expectations in the wake of continuing new challenges, such as COVID-19.

"COVID-19 caused an unprecedented disruption at workplaces worldwide," says the spokesperson. "To help our clients safely reopen their offices and commercial spaces for business, we immediately adopted the newest COVID-19-specific protocols as required by national agencies. This includes the use of electrostatic sprayers and foggers to provide maximum coverage and eliminate harmful viruses. As our clients, you can count on us to always offer you nothing but the latest and best in technology and health and safety."

D&A Building Services Inc. offers a licensed quality assurance program, CompuClean, which provides the framework for self-inspections at each property. Clients can rest assured of the work quality as all D&A crew members are fully licensed, bonded, and insured and are never subcontracted. The company also offers lost key protection insurance to reduce client liability.

Over the years, several of the building maintenance company's clients have profusely thanked D&A Building Services Inc. for keeping their commercial properties clean and safe. In their reviews, clients note its thorough and meticulous cleaning crews, the customizable packages, and its stellar customer service.

Gregory Culbertson from Orlando Health says, "Your team always does an excellent job here. I appreciate the work they do, and I know others here do as well. I hear the comments in the halls about how beautiful it is here, and your team is a big part of that."

Another review on the company's Google Business Profile says, "D&A has serviced our storage facility a few times now. He has been prompt, upfront, and reasonable with his quotes. He has always shown up on time and certainly seems to know his business. He has operated on both our digital, and mechanical gate, and has always provided reliable service."

Commercial property owners in Longwood, FL, where it is based, and nearby areas are urged to visit the company's website to browse through all its service offerings. The company has also published a list of clients that it has worked with in the past or is currently servicing.
