

Green Goddess Is Offering Eco Friendly & Natural Spray Cleaner Concentrates In New Zealand

August 16, 2023

August 16, 2023 - PRESSADVANTAGE -

Green Goddess, a New Zealand-based natural laundry, cleaners, and body care products retailer, has announced the launch of its eco-friendly natural spray cleaner concentrate lineup.

The company's products are designed for customers who are conscious of their carbon footprint and care about how they affect the environment through their choices. With the launch of its new eco-friendly natural spray cleaner concentrate lineup, the company is giving customers a chance to ensure that their cleaning habits are sustainable and have minimal impact on the world around them without sacrificing cleaning quality and ease of use.

Green Goddess's spray cleaner concentrate lineup is formulated from plant-based ingredients that are biodegradable and non-toxic. Buyers can rest assured that using the concentrates won't leave behind harmful residue or contribute to water pollution once they find their way back into the environment.

The 100% natural ingredients used in them are in line with the company's mission to be cruelty-free and 97% vegan. The spray cleaner concentrates are also free from palm oil, artificial fragrances, synthetic surfactants, and preservatives, and are septic-safe.

Triona Daly, who now owns Green Goddess along with her partner Grant, talks about the benefits of the spray cleaner concentrates by saying, "We've always created and offered products that empower our customers to reduce their carbon footprint and promote a healthier planet for future generations. With our new spray cleaner concentrates, which are made from using only eco-friendly and natural ingredients, you can get the peace of mind that comes with knowing that you are living up to that promise."

The concentrates have been designed to be versatile and simplify homeowners' cleaning routines. The Rose Multipurpose Surface Spray Cleaner and Citrus Multipurpose Surface Spray Cleaner work on a wide range of surfaces including countertops, glass, stainless steel, and other household surfaces. The company also offers the Mould Magic Natural Mould Inhibitor Spray and Lemon Thyme Bathroom and Shower Spray Cleaner for specific tasks around the home.

To ensure that waste is minimized, Green Goddess offers its spray cleaner concentrates in glass bottles that can be refilled several times. This allows the company to ship its products without resorting to wasteful and non-biodegradable packaging that other cleaning solutions come in. The ready-to-use cleaning products can be mixed with water at home and filled in a spray bottle to achieve the same result as store-bought options.

"Our unique distribution model helps us keep harmful packaging out of the environment while also saving our customers tons of money," says Grant. "The 200ml concentrate makes four 500ml (2L) spray cleaners while the 500ml makes ten 500ml (5L) spray cleaners. Just pour 50ml of concentrate in your spray bottle and add 450ml of filtered water, shake to mix, and you have a cleaning solution that is as effective as, but significantly less harmful to the environment, than other spray cleaners on the market."

Founded by eco-warrior Wendy Nissen in 2010 and now led by Grant and Triona, Green Goddess boasts a long legacy of offering high-quality products that are safe to use around the home and on the body without worrying about the effect on one's health or the environment. Grant and Triona also spend a lot of their time raising awareness about the toxins that have infiltrated modern life and sharing sustainable ways to eliminate them.

The company's mission and product offerings have resonated with customers all over New Zealand. Its Google Business Profile also boasts a perfect rating with 58 five star reviews praising the utility and quality of its products as well as Grant and Triona's stellar customer service.

One customer praises the company's products by saying, "Green Goddess products are fantastic, especially

love their cleaning paste perfect for all services, and Anti Bacterial Spray. Excellent service, fast delivery. Have also purchased ingredients to make clean green products from their recipes. All round excellent products and super service. A+.

Readers in New Zealand can get in touch with Green Goddess at 09 390 8182 or info@greengoddess.co.nz for inquiries.
