

Dr. Prab At Pecan St. Dental Is Helping Pflugerville Residents Learn About The Benefits Of Dental Implants

August 07, 2023

August 07, 2023 -
Pflugerville, TX, dentist Dr. Prab Singh is helping patients restore their smiles and improve their oral health through dental implants at his clinic, Pecan St. Dental.

Dental implants are artificial tooth roots made of titanium that are surgically placed into the jawbone to support replacement teeth or dental bridges. They are a popular and long-term solution for individuals with missing teeth or those who need to replace severely damaged ones. The dental implant procedure involves integrating the implant with the natural bone over time through a process called osseointegration, creating a strong and stable foundation for the prosthetic teeth.

?The benefits of dental implants are numerous,? says Dr. Prab. ?First and foremost, they offer a natural look and feel, enhancing the appearance of a person's smile. Since they fuse with the jawbone, they provide excellent stability and functionality, allowing our patients to eat, speak, and smile confidently. Moreover, unlike traditional dentures, implants do not require adhesive, which means no worries about slippage or

discomfort. Dental implants also prevent bone loss and preserve the facial structure by stimulating the jawbone, making them a proactive approach to oral health.?

Taking care of dental implants is essential to ensure their longevity and success. Maintaining proper oral hygiene is crucial, including brushing twice daily, flossing regularly, and using an antibacterial mouthwash. Regular dental check-ups should be scheduled to monitor the implants' condition and identify any potential issues early.

Patients are also advised to avoid habits like smoking and excessive consumption of staining beverages to help maintain the implant's appearance and overall oral health. By following these practices and seeking professional care, dental implant recipients can enjoy a beautiful and functional smile for years to come.

Dr. Prab talks about the process of getting dental implants at Pecan St. Dental by saying, ?It begins with the initial consultation where we assess your oral health, evaluate whether dental implants are right for you, and discuss your treatment goals. After the surgery, we keep a close eye on your progress to ensure the titanium implant that has been placed into the jawbone is fusing with the bone tissue as expected. Finally, once the implant has fully integrated, we attach the custom crown to the implant providing a natural and functional tooth replacement.?

The range of services offered by the Pflugerville dental clinic includes cosmetic dentistry, emergency dentistry, dental exams & cleaning, teeth whitening, dental crowns, dental implants, root canals, Invisalign, and more. The dentist's office blends state-of-the-art technology with heartfelt care no matter the service a patient needs, from routine cleanings to intricate cosmetic procedures.

Pflugerville residents have time and time again praised Dr. Prab and his team for helping them achieve their dental health goals as well as being there during dental emergencies. The clinic boasts a perfect 5.0 out of 5.0 rating from over 300 reviews with patients noting the compassionate care offered by Dr. Prab, the supportive dental staff, and the overall responsive customer service.

A recent 5-star review says, ?The staff and Dr. Prab did an amazing job. They took me back, took X-rays, scanned my teeth for 3D imaging, and checked for oral cancer. Dr. Prab took his time in explaining everything. The hygienist did a great job in cleaning. Explained everything that she was going to do. I would highly recommend them.?

Another patient writes, ?I decided to make an appointment here after being new in town. The staff was very professional and was able to make an appointment for me and my husband. We both went in for our initial exam and we left very happy with their service. They were very thorough, explained their course of action, and showed us prices so we wouldn?t be blinded by the bill. We loved their professionalism so much that I

made an appointment for my daughters to also be seen. We?ve been very happy with our experience.?
