Vitaliy also delved into Mindvalley's customer policies in light of its membership sale. His review highlighted the company's quality assurance measures and its 15-day no-questions-asked guarantee designed to provide a safety net for customers. It was unveiled that Mindvalley members can request a refund within 15 days from the date of purchase. After this period, membership can only be canceled, with members retaining access until the end of the subscription period.

For in-app purchases, Vitaliy's report pointed out that Mindvalley follows Apple and Google's refund policies.
