

Michael Taggart, aka X, Launches PR Guerrilla Training Course

December 17, 2015

December 17, 2015 -

Michael X Marketing, a business in Meridian, ID, is proud to announce that they have launched the PR Guerrilla training course. This is a new live marketing course that will soon be available. Michael X SEO has already trained thousands of customers in SEO and press releases and it is likely that this new course will be incredibly popular.

Michael Taggart, founder of Michael X Marketing, says: "I'm very excited to be able to announce my new course. I do have to tell people that there are only limited spaces available and they are selling out fast, so I recommend you book your place as soon as possible."

The new PR Guerrilla training is designed to show people exactly how to leverage unconventional PR 'growth hacks' by integrating them into big traffic and more customers. Most interestingly, the course will show people how to achieve this on a low budget, including a no cost budget.

The course will show people how authority is the most important thing in building a successful online presence. It will include a number of very unconventional guerrilla strategies, created to harness the power of

the world's most important media sites. This will show participants how to become a true media authority, tap into massive customer traffic, rank for high level keywords at will, build enormous subscriber lists, build huge social followings, sell more products and services and effectively become the expert in any industry. And, according to Michael X, this can all be done virtually overnight.

SEO with Michael Taggart has been very positively reviewed, which is a good indication of the upcoming popularity of the new course. "Saw your presentation for Russell Brunson's 7 figure... Looked great," says Edgar S. "I liked the fact that you offered useful info without going 'Oh, if only I had more time...' or 'I could teach you such and such if you become one of my students' unlike one of the presenters who gave a really watered down, almost useless presentation. Very impressive stuff."

Whenever Michael Taggart releases new SEO product options, a real internet buzz is created, and this announcement is no different.
