

Gulfcoast Eye Care Offers Easy Financing for LASIK and Area-Exclusive SMILE

August 07, 2023

August 07, 2023 - PRESSADVANTAGE -

Tampa Bay, FL ? Gulfcoast Eye Care, a leading vision enhancement provider in the Tampa Bay area, is inviting patients to take control of their eyesight this summer via LASIK and SMILE vision correction ? with accessible, affordable financing. Gulfcoast Eye Care offers lifechanging LASIK and is the only practice in the area to provide the advanced SMILE procedure, to improve vision and reduce reliance on eyeglasses or contact lenses.

Laser-assisted in situ keratomileusis, commonly known as LASIK, has revolutionized the field of vision correction, and is capable of correcting most cases of myopia (nearsightedness), hyperopia (farsightedness), and astigmatism. Gulfcoast Eye Care has built a name for providing an exceptional patient experience during their vision correction procedures and is offering LASIK and SMILE surgery at an affordable monthly cost of \$122, enabling more people to access these transformative procedures.

"We are thrilled to give patients the chance to experience the freedom and convenience that LASIK and SMILE surgery provide," said Michael Manning, M.D., F.A.C.S., lead ophthalmologist at Gulfcoast Eye Care and a respected eye surgeon in the industry at large. "We've seen some truly remarkable results in our

patients who have nearsightedness, farsightedness, or astigmatism when they get LASIK surgery. With our affordable monthly LASIK plans, we aim to make this incredible procedure accessible to a wide audience, helping them achieve clear vision and an improved quality of life."

In addition to LASIK, Gulfcoast Eye Care is also the sole provider of the SMILE procedure in the Tampa Bay area and is offering this same \$122 per month financing for SMILE. Small incision lenticule extraction, known as SMILE, is a state-of-the-art, minimally invasive laser vision correction technique that can correct even severe myopia and has advantages for some patients compared to traditional LASIK. An excellent choice for those with an active lifestyle, patients opting for SMILE surgery at Gulfcoast Eye Care can expect superior outcomes with minimal discomfort and downtime.

"It's a point of pride at Gulfcoast Eye Care that we're able to pioneer the SMILE procedure as its only provider in the Tampa Bay area," said Dr. Manning. "We're incredibly impressed by this surgery and its results. SMILE offers numerous advantages, including minimal invasiveness, quick recovery, and excellent visual outcomes. We're dedicated to providing patients with the highest level of care and delivering outstanding outcomes."

Gulfcoast is encouraging anyone interested in taking advantage of the benefits of LASIK and SMILE surgery to schedule an August consultation with Gulfcoast Eye Care's experienced team of eye care professionals. Patients receive a comprehensive examination to determine their candidacy for LASIK or SMILE surgery, learn what to expect during the procedure process, and discuss the affordable payment options available, including their competitive \$122/month financing through the Alphaeon Credit card.

For more information about LASIK and SMILE at Gulfcoast Eye Care, and to book a consultation, those interested can visit www.gulfcoasteyecare.com.
