

Trusted Veterans Restoration LLC Offers Roofing Contractor Services in Northern Virginia

August 09, 2023

August 09, 2023 -

Trusted Veterans Restoration LLC, a company based in Manassas, VA, wants to emphasize their roofing contractor services in Northern Virginia. This company is veteran owned and operated consisting of residential restoration and remodeling specialists. They want to assure clients they only use the highest quality and sustainable materials to ensure the roof is reliable for many years to come. They take pride in offering personalized customer service based on the specific needs of the client and the home.

Ernesto Febus, Director of Sales at Trusted Veterans Restoration, says, ?Our mission at Trusted Veterans Restoration is to provide expert home restoration services with 100% customer satisfaction. Our customers come first, and we always treat your home as if it were our own. Call us today for your free estimate.?

The quality of their services is attested to by the highly positive reviews they have been receiving from customers and they have an overall rating of 4.6 out of 5 stars on Google. For instance, in a recent review, M.K. gave them a five star rating and said, ?Trusted Veterans Restoration did a wonderful job replacing the

roof on our home. They provided outstanding professional services, took the time to answer questions and used good quality materials. Hassle-free. New roof installation and clean up was completed in one day. We worked with Faraz, and he is one of the nicest out there. He really took the time to work with us to make sure all ends were met. If you want honest quality work, I would definitely recommend them for any of your roofing needs.?

For roofing services, they offer roof contractor services, roof replacement services, and asphalt shingles repair or installation. Ensuring that the roof is in the best possible condition is vital because the wind, the rain, the sun, and snow can cause damage to the roof. Furthermore, roof shingles and its foundation can gradually warp over time, resulting into cracks, leaks, and holes. If such things occur, it is essential to have the roof repaired as soon as possible because leaks and cracks can worsen over time and become more costly to repair. Their team of roofing contractors will inspect the roof to check if there are any potential weak points and then provide the necessary repairs using high-quality materials that also make the roof appear aesthetically attractive.

Some of the popular roofing materials that can be repaired or installed by Trusted Veterans Restoration include slate shingles, wood shingles and shakes, and metal slats. They can also offer commercial roofing services. They are also well-experienced in the repair and installation of flat roofs. They can also reseal EPDM rubber roofs or apply a new layer of modified bitumen to ensure that flat roofs will be able to withstand the various elements.

There are some factors that the homeowner may want to consider to decide whether their roof needs to be inspected to find out if it may require repairs. These include: the age of the roof, weather damage, and insect and animal infestations. They suggest having the roof replaced every 15 years, depending on the roofing material used. Also, if the roof has been exposed to extreme weather conditions, it would be a good idea to have the roof inspected for leaks. Strong winds, tree branches and other debris falling on the roof, heavy snow, and more can cause damage to the roof. Lastly, if birds, raccoons, and squirrels have been building their nests on the roof, this may cause holes that allow water to get in.

Founded in 2018, Trusted Veterans Restoration LLC provides home restoration services along with other related services, such as residential roofing, commercial construction, construction for sidings, gutters, windows, and doors. Mike McIntosh is the owner of Trusted Veterans and serves as the CEO. He is a former member of the US Marine Corps and was born and raised in Virginia and he lives by core values, such as honor, trust, commitment, and respect.
