

Studio Z Dental Welcomes New Dentist in Louisville Colorado Practice

August 21, 2023

Louisville, Colorado - August 21, 2023 -
Studio Z Dental, a dental office in Louisville, CO, is thrilled to announce its newest team member, Isabella Jasek. Dr. Jasek will use her advanced training in dental sleep medicine to help treat patients with sleep apnea. She is also a certified provider of Invisalign. Studio Z Dental offers holistic, cosmetic, and implant dentistry, including the highest quality implants, lumineers, complex reconstruction, teeth whitening, bleaching, veneers, and surgical services. They serve adults and kids, providing various treatments, such as holistic and mercury-safe alternatives.

Dr. Isabella Jasek grew up in Rockton, IL, and earned her undergraduate degree from Marquette University in Milwaukee, WI. She obtained her Doctor of Dental Surgery (DDS) degree from the University of Iowa College of Dentistry. She underwent clinical rotation at the University of Iowa, inspiring her to move to Colorado to take advantage of the active lifestyle and sunshine. She practiced for several years in Colorado before joining Studio Z Dental.

Dr. Isabella Jasek, DDS, AADSM, prefers to provide conservative and high-quality dentistry. Aside from being an Invisalign certified provider, she is an American Academy of Dental Sleep Medicine qualified dentist, and she is a member of the International Academy of Oral Medicine and Toxicology, American Dental Association, Colorado Dental Association, and Boulder/Broomfield County Dental Society. She loves to get to know her patients and provide them with compassionate and gentle dental care. She develops personalized treatment plans based on each patient's specific needs and values. She is fluent in English and Polish and is excited about joining Studio Z Dental.

Studio Z Dental offers various services: family dental needs, implant dentistry, cosmetic dentistry, surgical services, veneers and lumineers, teeth whitening and bleaching, periodontics, eco-friendly dentistry, very low radiation digital x-rays, and mercury-free dentistry. The family dental care they provide includes dentistry for kids and basic dental care, such as cleaning & prevention, periodontal care, cosmetic dentistry, Panorex & digital x-rays, bioceramic restorations, Invisalign, TMJ/Bruxism, and custom athletic mouthguards.

They also offer preventive care, providing regular cleanings and comprehensive examinations to ensure dental problems are detected while still small. They encourage patients to visit the dental office at least once every six months to ensure good oral health. They can also provide oral cancer exam screening to ensure early detection, which offers the best way to avoid invasive treatment.

They also offer cosmetic dentistry services, such as metal-free porcelain crowns, dental implants, veneers, and teeth whitening or bleaching. They offer bioceramic restorations, which use dental material that is longer-lasting and yet is a more biocompatible material for bridges, crowns, veneers, onlays, and inlays. Bioceramic materials are non-toxic, will not shrink over time, and will decrease swelling and inflammation. They also offer mercury-free dentistry, providing the safe removal of mercury fillings.

They also ensure the practice is mercury-safe by following the protocols set by the International Academy of Oral Medicine and Toxicology (IAOMT) to prevent the patient from getting exposed to high levels of mercury released during removal.

Founded in 2010, Studio Z Dental is a practice in Louisville, CO, near Boulder, that offers cosmetic, holistic, and implant dentistry and is led by Dr. Tom Zyvoloski, DDS, IBDM, AIAOMT. Dr. Tom prefers to serve as a family and cosmetic dentist who loves helping patients by providing them with the simple dental care they need to remain healthy, as much as he enjoys doing complex aesthetic and reconstructive dental work. The dental office is equipped with some of the most advanced equipment to provide enhanced patient care, including intra-oral cameras for patient education, a Swiss IQ Air purification system for mercury-safe silver amalgam filling removal, digital X-rays, and "Air Defense," the air ionizer purification system.

When looking for a family practice and holistic dentist Boulder residents can rely on, people can check out the Studio Z Dental website or contact them via phone or email. They are open from 8:00 am to 5:00 pm on Mondays; from 9:00 am to 6:00 pm on Wednesdays; from 7:00 am to 5:00 pm on Tuesdays, and Thursdays; and from 7:00 am to 4:00 pm on Fridays.
