

Hip And Joint Supplements For Dogs Now Available Through Brand New Website

December 15, 2015

December 15, 2015 - PRESSADVANTAGE -

Happy Dog Health, a business in Burbank, CA, is proud to announce the launch of their new online store. The store aims to be the go to place for quality hip and joint supplements for dogs, which are all made in the USA. The company is dedicated to providing quality products for the health of dogs.

"We simply love dogs and we want to do everything we can to improve the health of our trusted companions," says Andres O from Happy Dog Health. "We want to make it as easy as possible for people to look after their dogs and we feel that our new website will improve that greatly. It is a one stop shop for things dog-health related and particularly our flagship joint and hip supplement."

The website, which can be accessed through <http://happydoghealth.com/>, currently lists a variety of details about why dog supplements are so important, and why the product is of such good quality. It also currently offers people an opportunity to download a completely free eBook on how to select the best types of supplements for dogs.

The dog hip and joint supplement has been very positively reviewed by those who have tried it. "I'm writing to

let you know that I have been giving my dog Hip and Joint Relief supplements and I can see that he looks happier and wants to play," says Stephanie P. "I plan to continue giving him your supplements so that he will have the joint lubrication he needs."

The product is proving to be very popular because it is made in the USA using high quality, naturally sourced ingredients. The supplement for dogs, which is natural and chewable, can be used on both young and old dogs, as well as, large and small breeds and is designed to address problems with hip dysplasia, a condition common in many dogs such as the Labrador or German Shepherds. Happy Dog Health fully stands behind the quality of the product. This is why they offer a full refund if a customer finds their dog does not like it or that it does not work.
