

Safe Laser Therapy LLC Is Offering Cold Laser Therapy For Pain Relief In New York And Connecticut

October 23, 2023

October 23, 2023 -
Safe Laser Therapy LLC, an eco-friendly wellness clinic in Stamford, CT, is offering clients state-of-the-art laser therapy for pain relief.

Developed in the 1960s, cold laser therapy, sometimes also referred to as photobiomodulation therapy or soft laser therapy, uses light energy to reduce inflammation and stimulate cellular activity. The treatment uses diodes that emit low near-infrared or red light levels to target deep tissue. The light kickstarts the body?s energy at a cellular level, speeding the healing process, and promoting healthy cell regeneration and tissue repair.

?Cold laser therapy is an effective and safe method of pain management that does not require the use of prescription medications,? says Dr. Malti Gupta, founder of Safe Laser Therapy LLC. ?A lot of prescription medicines contain opioids which can lead to addiction and have terrible side effects. Cold laser treatments, on the other hand, reduce swelling and pain by leveraging the body?s own healing methods thus making it a

safer and more preferred option in the long term.?

Some patients may experience results quickly but should plan on receiving anywhere from eight to thirty sessions for more serious issues. The Connecticut cold laser therapy clinic can help clients with a wide range of conditions including back pain, neck pain, knee pain, sciatica, carpal tunnel, arthritis, rheumatoid arthritis, poor blood circulation, chronic fatigue, menstrual cramps, shoulder stiffness, muscle stiffness, sports injury, post-exercise pain, whiplash, bursitis, Lyme disease, fibromyalgia, and more.

Safe Laser Therapy LLC offers patients a safe, non-invasive, painless, and drug-free treatment that has dramatically improved their lives, helping them with stopping smoking, detoxification, inflammation, arthritis, joint pain, muscle stiffness, muscle injury, topical wounds, hair loss, back pain, neck pain, shoulder pain, appetite suppression, weight loss, cellulite, skin rejuvenation, and a range of skin conditions.

Founder Malti Gupta is an experienced LLLT (Low-Level Laser Therapy) practitioner who has already helped thousands of her patients live happier and healthy lives. She trained at the respected Lightworks Clinic in the UK where she gained a deep knowledge of laser therapy?s effectiveness at addressing all kinds of health issues.

?My first mission was to help my brother stop smoking,? says Dr. Gupta. ?After becoming a certified laser therapist and offering my brother the right treatment, he quit for good. That was over 15 years ago. Since then, I?ve helped thousands of patients get the natural treatment option they need for a range of conditions including hair loss, weight loss, reduction of inflammation, relief from joint pain, and wound care after surgery.?

The clinic has already received tremendous praise from its patients in New York and Connecticut. On its Google Business Profile, where it has a perfect 5-star rating from nearly 25 reviews, clients thank Dr. Gupta for her relevant and precise advice, the professionalism of the rest of the staff, and the results the treatments are able to deliver.

A recent review says, ?I was a big-time secret smoker in the last few years and smoked for over 20 years. I?ve tried hypnosis, acupuncture and nicotine replacement, and willpower which were all useless. This laser therapy was new to me, but I?m 10 days without smoking and I really don?t miss it. I?m not going to smoke again. I feel amazing and powerful.?

Another client writes, ?I started the full infrared body wrap treatment four weeks ago. During the treatments, I felt relaxed to the point where I took short naps. After the treatment my skin felt tighter, I had more energy, and felt lighter which gave me the results that I was going for. Malti is a knowledgeable person that will help you reach your goal and stay on track to see even better results. With my last treatment to go, I strongly

recommend to anyone to try it out. I'm for sure coming back.?

Readers looking for pain relief in Stamford CT can contact Safe Laser Therapy LLC at (203) 601-7772 to inquire about its cold laser therapy services or to book an appointment.
