

Miami Smile Dental

One of Florida's Top Cosmetic Dentists, Dr. Serge Papiernik, Opens New Dental Office of the Future

January 13, 2016

January 13, 2016 - PRESSADVANTAGE -

Miami Smile Dental, a dental practice in Miami, FL, is proud to announce that they have opened a new hi-tech dental office in the South Miami area. This will allow them to make use of a number of new dental technologies and services. These include digital impressions, digital x-rays, dental chairs that also give massages, intraoral cameras, computers in every room, and state of the art sterilization systems. The office has been hailed as Miami's 'dental office of the future'. Full details are available on <http://www.miamismile.net>.

"Our purpose is to provide our patients with quality dental services in a friendly and caring atmosphere," says Dr. Serge Papiernik from Miami Smile Dental. "We believe that a healthy smile begins with knowledge. That is why one of our goals is to help elevate the patients' dental awareness and to provide them with the best tools to maintain their dental health at its optimum. Our new, state of the art tools and technology will enable us to achieve that." Dr. Papiernik was the winner of the prestigious Patient's Choice Award for 2015. This award is given to dental professionals that have received great reviews from customers due to their excellent quality of care in dentistry.

Dr. Papiernik's office is an excellent example of high-tech dental office design and has been showcased as a model office from vendors like Pelton & Crane and Henry Schein Dental. Several photographs of the new look of the dental office can be seen at <http://www.miamismile.net/template.jsp?doc=miamismile&c=New+office&wiz=0&page=New+office>. They show a comfortable, welcoming waiting room, as well as one of the treatment rooms, which has a view over the city. Other images of the dentists' personal offices, the sterilization room and even the staff kitchen are also provided. The new, sleek and modern look has been pulled throughout the entire office.

Dr. Papiernik and his team will continue to deliver a variety of high quality dental services at their new dental office. These include cosmetic dentistry, oral surgery, dental prosthetics, dental implants, Invisalign (invisible braces), teeth whitening, dental veneers and more. Full details about the services are available at <http://www.miamismile.net/template.jsp?doc=miamismile&c=Dental+Services&wiz=0&page=Dental+Services>.

Patients of Dr. Papiernik have been full of praise about the provided services and they look forward to coming to the new practice. "Dr. P has been my dentist since he began practice at this location well over 10 years ago," says Lois S. "Dental procedures have always caused me high anxiety, however I've come to trust and respect Dr. P's professional, wise and comforting approach. His assistant, Terry, and Dr. P. always thoroughly and patiently explain options before & during treatment communicating what I can expect thereby reducing my fears. They've gone out of their way to support, guide and gently provide high quality dentistry using the latest information, techniques and cutting edge technology. We've developed an easy friendship, respect and trust through the years. I've referred friends and family to Dr. P and Terry and they've all thanked me ... for the same reasons I've expressed."
