Amana Urgent Care Clinic Offering Walk-In Urgent Medical Care in Muscatine Iowa Gets Five Star Review

August 29, 2023

MUSCATINE, Iowa - August 29, 2023 -
Amana Care Clinic - Muscatine, a medical care clinic in Muscatine, IA, offering urgent care clinic services for non-life-threatening medical problems, is pleased to announce they have recently received another five star review from a patient. They have an overall rating of 5.0 out 5 stars on Google. The patient praised the extra care they provided, ensuring patients don?t have to wait a long time in getting the treatment they seek. They also offer an online visit feature that allows a patient to get a virtual visit from a physician or nurse from the comfort and safety of their home.

Muscatine is a city in Muscatine County, Iowa, with a population of 23,797 as of the 2020 census. It is located along the Mississippi River and offers a lot of things to do for residents and visitors. For instance, along the river, there are many places they can go to, such as the: Fairport Fish Hatchery, Great River Road, Lock & Dam No. 16, Mississippi Mist Fountain, Muscatine Municipal Boat Harbor, Norbert F. Beckey Bridge, Riverside Park, and Running River Trail System. There are also a wide range of attractions, including the: Ardon Creek Winery, Butterfly Garden, Contrary Brewing Company, Environmental Learning Center, Melons/Produce, Muscatine Aquatic Center, Muscatine Art Center, National Pearl Button Museum, and more. Meanwhile, residents and visitors requiring urgent care can simply visit Amana Care Clinic and will not have to wait long to get the treatment they require.

In the above-mentioned five star review, Caitie M. said, ?They actually took time to really listen and get a whole history, not the kind of care you typically receive at urgent care. This?ll be our new go-to.?

It is important to note that they can provide treatment for non-life threatening health problems, such as: abrasions; bites; burns; wound follow-up, wound recheck, dressing change, and removal of sutures; back discomfort; cut or laceration, needing stitches; impetigo; cold symptoms such as fever, cough, or sore throat; childhood illness such as pink eye, rashes, or eye symptoms; diarrhea; ear pain or infection; fractured bone; injury of the ankle, knee, foot, wrist, elbow, or hand; joint pain; fish hook removal; muscle injury ? pull, strain,

sprain; rash; sports physicals; sunburn; x-rays; sinus pain or infection; full lab services; vaginal discharge; urinary tract infection; and other minor health conditions.

However, they want to point out that for health conditions that may be life-threatening, they advise patients to go directly to the emergency room or department of a hospital or call 911. These include: serious difficulty breathing; change in mental status (such as unusual behavior, confusion, or difficulty arousing); severe bleeding that won't stop; choking, coughing or vomiting blood; fainting or loss of consciousness; chest pain; head or spine injury; severe or persistent vomiting or diarrhea; burns or smoke inhalation; near drowning; feelings of wanting to harm oneself or others; sudden injury due to motor vehicle injury; sudden dizziness, weakness or change in vision; swallowing a poisonous substance; a deep or large wound; carbon monoxide exposure; sudden blindness or severe eye injury; abdominal pain; pregnancy related concerns; sexual assault; vaginal bleeding (non-pregnancy); and partial or full paralysis.
