

Henderson Full Service Moving Company Three Movers Earns Another Five Star Review

September 01, 2023

Henderson, Nevada - September 01, 2023 -
Three Movers, a full-service moving company based in Henderson, NV, takes pride in announcing they have recently received another five star review from a satisfied client. The company provides moving services to clients, whether they are moving to a new place downtown in Henderson, or to the next city, state, or thousands of miles overseas. Whatever the reason for the move, Three Movers can help with the most difficult part of the moving process, which is moving the precious household belongings to the new location.

Three Movers has an overall rating of 4.8 out of 5 stars on Google, and in the above-mentioned five star review, Blaze R. says, ?Having recently collaborated with Three Movers for our corporate relocation, I can attest to their exceptional professionalism and efficiency. Their meticulous planning, combined with their adept team, ensured a smooth transition with minimal business disruption. A commendable service.?

A full-service move means Three Movers will be taking care of all elements of the move to a new location. This means they will provide a moving vehicle or truck, including any labor that would be required. They will

also provide the various supplies and materials that would be required, such as packing boxes and more. Clients will only have to make a few important decisions. Aside from that, the client need not do anything else.

Meanwhile, packing is typically the most difficult part of the move. With Three Movers in Henderson, Nevada, their moving professionals will handle all of the packing required, including disassembling furniture items. They will even provide the boxes and other moving supplies to make sure that the valuable possessions will be protected sufficiently while these are being transported. They will also take care of the re-assembly of the furniture items once they have arrived at the new destination. They will also pack any electronics appliances or equipment with care, providing protection for their fragile components to make sure they don?t get damaged while in transport. The client will also not have to worry about the disposal of the cardboard boxes and other moving supplies used after the move is complete.

For those situations when all of the belongings of the client can?t be accommodated in the new location or the new home is not yet fully prepared for all of the client?s possessions, temporary or even long-term storage can be provided by Three Movers. In addition, for clients who have car or vehicle to ship to the new location, Three Movers can also provide the service. The client will be offered an option for car shipping that is appropriate for their budget and needs. However, it is important to note that clients will have to disconnect and remove the batteries of the car before shipping.

Three Movers will compute the cost of the full service move using two factors: time for local moves and weight for long-distance moves. Clients can get an estimate if they discuss the relocation with the company during the initial consultation. Three Movers will perform a physical assessment of the client?s home and then provide an exact quotation.

Three Movers was founded 20 years ago by three college friends who had experienced themselves the challenges of moving when they transferred to a new apartment. After their unsatisfactory moving experience, they brainstormed about the possible ways to ensure a move will be less problematic and more efficient. They established their new business with only three men and one U-Haul truck. After a number of miles and clients, the company was able to win trust and confidence of people by making sure their client?s belongings are safe and by offering their services at affordable prices. With their free and consistent quotes, clients are assured they are getting the best possible rate for their move. They are capable of providing a full service move, including truck rental services, and offering assistance with the packing and unpacking of the precious belongings of the client.

Those who are looking for full service moving services, including packing services, can check out the Three

Movers website or contact them on the phone or through email.
