

Commercial Property Damage Cleanup Provider in Post Falls Idaho Has a Five Star Reputation

September 05, 2023

September 05, 2023 -
PuroClean of Post Falls, Idaho, a commercial property damage cleanup provider, takes pride in the many five star reviews they have been receiving from satisfied customers. They currently have an overall rating of 4.3 out of 5 stars on Google and in a recent review, Daniel L. gave them five stars and said, ?PuroClean of Post Falls did an excellent job restoring my home. Their team was professional, efficient, and knowledgeable. They were able to remove all traces of water damage and leave my home looking like new. I highly recommend their services.?

Mark Davis, Chairman and CEO of PuroClean, says, ?Our ?rescue? work ethic has earned PuroClean the reputation of being known as ?The Paramedics of Property Damage®?. A paramedic is a first responder, an authority that brings calm and confidence, stopping further harm, administering emergency on-site treatment, and stabilizing a situation to allow for subsequent professional aid and assistance when required. Our training center, the PuroClean Academy, is one of the most state-of-the-art facilities delivering the highest level of training in our industry. It allows all PuroClean franchise owners and their employees the opportunity to receive certifications from the IICRC.?

As indicated in the above-mentioned review, emergency flood and water damage restoration is one of the key services provided by PuroClean. This is a vital service because water can cause a lot of damage to a property, even in small quantities. Water infiltration into a home or building can cause significant structural damage and mold growth. Exposure to mold can result into respiratory issues and can worsen respiratory illnesses, which is why mold in the home or office can be dangerous.

A quick response from a water damage restoration company is therefore required to prevent the situation from becoming worse. Property restoration companies have the requisite expertise and equipment and expertise for getting rid of the water, drying out affected areas, and fix the damages. Mark Davis says, ?When you need water damage restoration services near you, call the experts at PuroClean. We are here day or night, 24/7, to help remove any standing water quickly and monitor the drying process so you can rest assured that your property is dried thoroughly. We offer commercial restoration services for businesses and residential water damage restoration for homeowners. PuroClean restores properties affected by water damage caused by floods, broken pipes, backed-up sewer lines, leaking faucets or toilets, air conditioning units, old water heaters, or any other kind of water damage in your home or business.?

PuroClean also provides mold remediation services to counteract mold growth in a property as well as clean up the mold to address the source of the mold odor to bring back the home or business to its original condition. Mold remediation has to be done promptly because mold damage can result into several problems in the home or business that may lead to health problems if not taken care of or not dried quickly. The mold will multiple very fast in the presence of a lot of moisture, which in turn will cause deterioration of the structure and bad odors throughout the property. The IICRC certified technicians from PuroClean will comply with industry standards in remediating mold that has infected and/or damaged property.

PuroClean can also provide fire and smoke damage restoration services. They offer this service 24/7 because timing is critical after a fire has been extinguished. The longer the fire and smoke damage are left unattended to, the worse the damage can become. This service includes: smoke odor removal and deodorization; pack-outs and contents cleaning; emergency cleaning and sanitation; carpet and pad removal; temporary protection / board-up; and puff-back cleaning.

Founded in 2001, PuroSystems LLC is a top service provider in the franchise restoration industry. The company launched PuroClean, which has evolved into a top property damage remediation franchise in North America. PuroClean has a network of 400 locations, offering their services to various communities throughout the United States and Canada through their 24-hours property emergency restoration services.

Those who are interested in flood water removal and other commercial property damage cleanup services can check out the PuroClean website or contact them on the phone or through email.
